### PRIVATE SECRETARY'S OFFICE.

#### NOTIFICATION.

We A.—In accordance with the provisions of the Statute in the Public at Water Royal Military College, Dehra Dun, the following information is published for the use of candidates.

(1) The college will provide a public school education in English from the 1st July, 1904, the date subsequently to enter the Royal Military College, Sandhurst, with a view to obtaining a commission in the Indian Army. It is intended for those who wish to make the Army their profession. Detailed list, and persons or guardians of candidates will be required to furnish a declaration to the effect that the name of study at the college will, however, be such that, should a boy fail in the examination for admission to the Royal Military College, Sandhurst, he will be in as good a position to obtain a commission elsewhere as if he had been educated at an ordinary school.

(2) Candidates will be accepted from—

- (a) Possessors of British India;
- (b) Indian States.

Nominations will be made by the Ruler or the Commander-in-Chief of the Government or Administration of the Political Officer, as the case may be.

(3) Candidates must be under 15 and over 11 years of age on the 1st December 1904.

(4) Candidates should attach to their applications a medical certificate from the Officer Commanding a British or Indian Medical Hospital or a Civil Surgeon to the effect that they are physically fit in all respects in accordance with the attached appendix.

(5) The fee will be Rs. 1,200 for each school year and are liable to enhancement hereafter, if circumstances require. The fee payable by candidates who are sent at Indian officers of good service will be determined by the Ruler or the Commander-in-Chief in each particular case. These fees will include tuition, sewing, school equipment, washing and dressing, and on final examination of the ordinary level, and, as initial provision, one set of the uniform to be worn by students when at the college.

In the event of a becoming necessary for pupils to be admitted into a civil hospital, all charges incurred will be borne by the parents or guardians of the pupils.

(6) One general rule will be required. All students will be required to move together. Special rules will be taken that as food is served in the mess which could in any way affect the religious observance of any student.

(2) All applications should be submitted to the Private Secretary to His Excellency the Governor of Madras, Madras Governor's Camp, not later than the 31st November 1924 in the form below. The applications received after the 31st November will be considered.

FORM OF APPLICATION.

APPENDIX.

Information regarding the medical examination of candidates for admission to the *Prison of Wales' Royal Indian Military College, India*.

1. The medical examination of candidates for admission to the *Prison of Wales' Royal Indian Military College, India*, should preferably be made by—
  - (a) The Officer Commanding a District or Indian Medical Hospital, or, failing (a),
  - (b) A Civil Surgeon.
2. A standard for height and chest measurements and physical development cannot be laid down, but the candidate should not be below the average for his age and race.
3. The standard of acceptance of candidates of various races with which a candidate will be considered is as follows—

Indian eye.  
Distance vision 5 = 4/5.  
Near vision reads 0.5.

White eye.  
Distance vision not below 4/5.  
After correction with glasses not below 4/5.  
Near vision reads 0.5.

Candidate's eyes should be sound.

Each eye must have a full field of vision as tested by hand movements. Squint or any marked condition of the eyes or of the lid of either eye leads to the risk of rejection or reservation, will cause the rejection of the candidate.

Each eye will be examined separately. The candidate will be required to read the tests in ordinary daylight.

Inability to distinguish the principal colours will not be regarded as a cause for rejection, but the fact will be noted in the proceedings and the candidate will be informed.

No reference of the standard of vision will be allowed.

4. The following additional points will then be observed—

- (a) That his hearing is good.
- (b) That his speech is without impediment.
- (c) That his teeth are in good order. He must have six (6) sound teeth in the upper jaw, functionally opposed to six (6) sound teeth in the lower jaw. Two of these teeth in each jaw must be molars. Well-used teeth will be considered as sound.
- (d) That his chest is well formed and that his lungs and heart are sound.
- (e) That he does not suffer from a fair degree of rickets or various forms. A candidate who has been successfully operated on will be accepted.
- (f) That his limbs are well formed and developed.
- (g) That there is no ill-perfect motion of all the joints.
- (h) That his feet and toes are well formed.
- (i) That he does not suffer from any venereal skin diseases.
- (j) That he has no congenital malformation or defect.
- (k) That he does not have traces of gonorrhoea acute or chronic disease pointing to an impaired state.
- (l) That the candidate's age is as near as possible correctly stated.

## FINANCE DEPARTMENT.

### NOTIFICATIONS.

*Fort St. George, October 23, 1924 [P.O. No. No. 481, Finance (Pension)].*

No. 519.—The following Government Order is published for information:—

**READ**—the following paper:—

Letter from E. B. Rao, Esq., M.A., Under Secretary to the Government of India, Finance Department, to the Secretary to the Government of Madras, Finance Department, dated Madras, the 29th September 1924, No. E. 375-U.R.2.

(Subject—Procedure relating to the payment of pension.)

I am directed to say that the attention of the Government of India has been drawn to the desirability of improving the procedure relative to the payment of pension in view of a case which recently happened of payment to a wrong person on account of mistaken identity.

2. It appears that in applications for pension, proper names are frequently written illegibly and consequently there is a possibility of mistakes occurring in payment, and it has been suggested that to prevent such mistake the details recorded against items 1, 2, 3, 4 and 14 of Form No. 25, Civil Service Regulations, items 1 and 11 of Form No. 26 and items 1, 4, 6 and 14 of Form No. 28 should be entered in block capitals by hands of officers or other officers concerned. The Government of India have accepted the suggestion and I am to request that, with the permission of His Excellency the Governor in Council, necessary instructions may be issued on the subject.

3. The procedure indicated in article 528 of Civil Account Code, Volume II, is also susceptible of improvement. According to the existing procedure when a pensioner presents himself to draw his pension for the first time, the Treasury Officer takes his signature on the Collector's half of the Pension Payment Order. As regards illiterate pensioners, it seems unsafe to depend entirely upon personal marks as these are often scanty and somewhat indeterminate. A fraudulent pensioner having passed muster on the first occasion will have no further trouble, since his signature on the receipts will ever after be compared with the signature he gave on his first appearance. As the existing procedure is defective, the Government of India have decided that in future, when completing the pension application forms, the head of the office should take two spare copies of the applicant's signature. These should be sent to the Accountant-General concerned, who would retain one copy in his office and paste the other copy on the disbursing officer's half of the Pension Payment Order. The Treasury Officer will then be in a position to compare the pensioner's signature, on his first appearance, with a signature known to be genuine.

**ORDER.**

**Recorded.**

4. The revised procedure relating to the preparation of applications for and to the payment of pension contained in the Government of India's letter read above should hereafter be adopted in this Presidency.

Deputy Secretary to Government.

No. 311.—The following notifications will be published in succession in notifications Nos. 41 and 42, dated 21st March 1925, published at page 368 of Part I, Fort St. George Gazette, dated 25th March 1925:—

## SUMMARY I.

In exercise of the powers conferred by section 3, clause (a) of the Madras Agricultural Pests and Diseases Act, 1918, the Government (Ministry of Development), hereby declare that *Homocidus*, as a pest of the same name as a pest of the same name, is a pest of the same name as a pest of the same name, and in exercise of the powers conferred by section 3, clause (a) of the said Act, the following is hereby notified:—

measures shall be taken in respect of palms and coconut palms attacked by the said disease in the districts of Kaituma and Gadenwan, Palawan, Yellwren and Chedavren Islands of the Godavari Agency, and in the islands of Rapulu and Trank in the Guntur district:—

(1) The stems of the said palms and coconut palms should be cut off immediately the central leaf becomes pale yellow.

(2) All spotted leaf-burns and four more healthy-looking ones should be cut off from every apparently infected palm, that has at least borne with a row of disease spots immediately the spotted leaf becomes pale yellow.

(3) All diseased stems, leaf-burns, leaves and other diseased material so cut off should be burnt in the field at once so that the fungus may be removed to death.

(4) All palms and coconut palms within a radius of 40 yards of a diseased tree should have 10 to 14 leaf-burns cut off. If the foregoing officer so directs, leaves of trees within a radius of 300 yards from an infected tree should similarly be cut. If any one of these said trees is found to have the typical signs of the disease, the tree from which they were cut should be treated by cutting off and burning all the diseased stems in the manner prescribed for trees whose leaf has the disease spots and such further precautions as may be found necessary in individual cases may be taken.

#### MARRAWARE II.

In connection with the application, and the prevention of the spread of the fungus *Pythium Falsarium* in the districts of Kaituma and Gadenwan, in the Palawan, Yellwren and Chedavren Islands of the Godavari Agency, and in the Rapulu and Trank Islands of the Guntur district, the following are appointed inspecting officers under section 19 of the Madras Agricultural Pests and Diseases Act, 1916:—

Village headmen, village schoolmasters, field revenue inspectors and revenue inspectors as special duty for the eradication of palm disease in the area specified.

(1) Under section 91 (f) of the above said Act, the Government (Ministry of Development) are pleased to direct that appeals under section 4 of the Act shall be to the Special Deputy Collector in charge of the operations.

(2) Under section 16 of the Act, the Government (Ministry of Development) hereby appoint the Tehsildar or Deputy Tehsildar in independent charge having jurisdiction over the land or premises concerned as valuing officer and agent under section 32 (f) of the Act that appeals under section 12 of the Act shall be to the Revenue Divisional officer having jurisdiction over the land or premises concerned.

Proof of ownership and claims for compensation.—These areas are not of value for any other purpose. All the reserves except the Zupungu are mostly sandy wastes. Wood of *Commersonia* and *Acacia* are found in the reserves, but the growth is very scanty. The Zupungu is a very fertile and well-watered area, and is covered with a growth of *Commersonia* and *Acacia*. It is proposed to declare the reserves for the purpose of afforestation and to prevent them from being used for any other purpose.

## APPENDIX.

*A Bill to make provision for the weekly payment of wages to workmen, domestic servants and other employees.*

WHEREAS it is expedient to make provision for the weekly payment of wages to workmen, domestic servants and other employees; It is hereby enacted as follows:—

*Short title, extent, commencement and application.*

1. (1) This Act may be called the Weekly Payments Act, 1923.

(2) It shall extend to the whole of British India, including British Baluchistan and the Southern Parganas.

(3) It shall come into force on the first day of June 1923.

(4) It shall apply—

(i) to every class of workers engaged in factories which come under the cognizance of the Indian Factories Act, 1911;

XXI of 1911.

(ii) to all employees in Government or private service establishments; and

(iii) to all skilled or unskilled workers or employees who are employed, provided that such workers or employees are in receipt of wages which in total amount to less than Rs. 100 per month.

2. From the date of the passing of this Act, it shall be unlawful for any employer to engage any workman, domestic servant or other employee, provided such workman, domestic servant or employee is to be paid his wages at a rate amounting to less than Rs. 100 per month, on any other basis except that of payment of such wages on the weekly basis.

3. Any breach of this Act will be punishable with simple imprisonment which may extend to three months, and may also be punishable with a fine not exceeding Rs. 1,000.

4. The provisions of this Act shall not affect the right of employers to make payments to workers on the daily or any other basis provided such payments are not withheld for more than a week.

## STATEMENT OF OBJECTS AND REASONS.

During recent strikes in India it has been observed that certain groups of unorganised employers have been in the habit of stopping the wages due to workmen who have worked in their factories even for a brief period of a month, thereby causing a great deal of hardship to such workers and their dependants. The remedy needed by such action on the part of employers was such that even the Government of Bombay had recently to take notice of it. The matter was subsequently raised in the House of Parliament where it was stated that the question of legislation on the lines indicated in the suggestion that payments to workers should be made on the weekly basis was under consideration. The passing of this Bill will certainly go a long way in getting a worker out only out of the clutches of evil employers and evil Agents, but equally out of the clutches of the gangster money-lender, considering that under the present circumstances an average worker's family is in industrial areas, where payment is made on the monthly basis, has to subsist on credit for a period of six weeks of their initial employment with not a single penny of their remuneration being paid to them during such period of their employment.

Act 31, 1964, Number 9, 1964 (G.O. 25, N. 3044, I. &amp; M.)

28. 1418—Under instruction (565) of the Lord Boards Manual, the Deputy Clerks have to supply form 1 to each land board a set of land board forms No. 4—detailed statement of permanent attachments. This instruction was issued on a day when Treasury Deputy Clerks were responsible both for the accounts of land boards and their audit. This system has since been altered by G.D. 1932, and the Deputy Clerks are now responsible for the accounts of the permanent land boards and not responsible for the proper maintenance of the accounts of the non-permanent land boards and their officers. The Government therefore consider that in future, the form in question should be obtained by land boards as required. In accordance with this decision the words and figure "to land boards" have been deleted from the instruction (565) of the Lord Boards Manual with effect from permanent attachments and "or Treasury" has been added.

Part II, Ganga, October 4, 1924 (G.O. No. 2719, L. &amp; M.).

No. 1151.—The following consolidated Audit Report of Municipalities and Local Boards for  
1922-23 is published for information:—The report has been divided into two parts, viz., Part I, dealing with Munici-  
palities, and Part II, with Local Boards.

## PART I.—MUNICIPALITIES.

The audit of the accounts of all the Municipalities for the year 1922-23 was  
completed and the audit reports were issued to the Municipal Councils for  
transmission with the replies of the Councils.

2. State of accounts.—The incomplete state of the registers in Municipalities  
submitted for audit has more than once been brought to the notice of Government  
both individually as well as generally. The same defect continued in most of the  
Municipalities even during the period under review. It is hoped that the list of  
defaulters in this respect will not be so long during the current year in view of the  
strict orders issued by Government in G.O. No. 2412, L. & M., dated 26th December  
1922. The unpreparedness of the Municipalities for the audit of the accounts  
relating to the second half-year of 1922-23 continued, as in previous years, in  
spite of instructions issued by Government. There were some Municipalities, such  
as Salem, Narasimhapur, Tellicherry, Gudiyattam and Calicut, which were not ready  
for audit in time. The unpreparedness for the audit seems to have been due to  
several causes, chief of which was the want of proper supervision over the work  
of the staff. Some of the Municipalities would seem to labour under a misapprehen-  
sion that it is the duty of the auditors to close the accounts for them. Audit can  
only help the administration in putting accounts right, but the preparation of the  
original accounts is and must be the legitimate duty of the administrative officers.

3. The general result of audit has been characterized in the individual audit  
reports as either satisfactory, or fairly satisfactory or unsatisfactory. Out of 80  
Municipalities in the Presidency, the accounts of only 16 can be said to have been  
satisfactorily maintained. The accounts of 25 Municipalities were found unsatis-  
factory, and of these, the Municipalities noted below had been specially brought to  
the notice of Government for their bad accounts in the consolidated audit report  
for the year 1921-22:—

Falgaon.	Cochin.	Thuvank.
Pedlagam.	Nellur.	Trichinopoly.
Rajamundry.	Kannan.	Vinayagaram.
Berunda.		

The general result of the audit of the accounts of the remaining Municipalities was reported as satisfactory or fairly satisfactory.

4. *Delay in the submission of monthly accounts.*—The monthly accounts prescribed in article 405 of the Municipal Account Code were either not submitted at all or sent after considerable lapse of time. The provisions of article 145 of the Municipal Account Code which requires the Chairmen to place the Demand, Collection and Balance statements before the Council every month were not observed. A list showing the Municipalities which delayed the submission of the accounts was sent to Government and orders have been passed in G.O. No. 2065, L. & M., dated 28th November 1923. The fact that the Demand, Collection and Balance statements were not prepared only indicates that the subsidiary registers were not posted up then and there.

5. *Delay in the return of audit notes.*—Even during the period under audit, there was little or no improvement in the return of audit notes within the allotted time of six weeks. Only 14 out of 154 audit notes issued (relating to the two half-years) were returned within the due date. In some bad cases the matter was brought to the special notice of Government. Anantapur, Tiruvalur, Trichinopoly and Rajahmundry were the worst in this respect. In G.O. No. 1474, L. & M., dated 27th June 1923, the Government have once again brought to the notice of local bodies the considerable delays in the return of audit notes and have informed them that, if early action is not taken, the Government will be compelled to take action under section 39 of the District Municipalities Act, 1920. It remains to be seen how far this order will have the desired effect.

6. *Delay in sending audit objections.*—The following Municipalities have the largest arrears under old outstanding objections:—

7. It is regrettable to observe that indifference to audit objections will continue to exist as in the previous years. In fact, the general impression seems to be that if audit objections are left unattended for a sufficiently long period, the Examiner and the Government can be induced to remove them by bringing forward the plea that papers are not traceable, recoveries are impossible, etc., owing to the long lapse of time since the objections were raised. Rule 69 of Schedule IV of the District Municipalities Act, 1920, imposes a statutory obligation on the Chairmen of Municipal Councils to forthwith remedy the irregularities pointed out by the auditors. It is significant that even this statutory obligation is ignored by most Chairmen, in spite of the repeated warnings given by Government. It should be remembered that audit is an expensive machinery and that the tax-payer does not get full value for the expenditure if the authorities concerned fail to take proper notice of the case of irregularities brought to light by the auditors.

8. In G.O. No. 614, Finance, dated 6th July 1923, Government warned the Municipalities that in cases where higher sanction to an expenditure is required under Rule 63 of Schedule IV of the District Municipalities Act, 1920, the expenditure would be recharged unless the requisite sanction is obtained before the next succeeding audit. In view of the persistent default in sending audit objections as is seen by the statistics given above, a similar order in regard to other kind of audit objections where money is involved seems to be urgently called for.

8. *Defects in assessment.*—In spite of the several orders of Government clearly explaining the procedure to be adopted under the new Act in regard to the levy of property tax, the correct procedure was not followed by many of the municipal councils. Similar defects with regard to the levy of other kinds of taxes were also commonly met with. These could be classified under the following heads:—

(a) *Wrong method of calculation of assessment.*—In Viluppuram Municipality the basis adopted for the assessment of railway buildings appears to have been 7 per cent on the estimated present cost of erecting the buildings. The non-inclusion of the cost of land and the calculation of the annual value in excess of 6 per cent was not in accordance with the provision to section 82 (2) of the District Municipalities Act, 1920.

(b) In Chidambaram, the revision of house-tax under the new Act was made by allowing 10 per cent for depreciation. The Demand Register did not undergo any other kind of revision. This resulted in a fall of revenue while the expenditure has increased. The procedure is irregular in view of the principle laid down in G.O. No. 1572, L. & M., dated 5th September 1922.

(c) *Elimination of pies in property tax assessment.*—The Government Order on the elimination of pies was inapplicable to the case of receipts (Government Memorandum No. 1844-B-1-2, Financial, dated 23rd March 1923). Nevertheless this elimination has been made from the assessment of property tax in Cannanore Municipality.

10. *Statutory requirements of the Act not complied with.*—(a) *Final notification under section 80 not issued.*—In some instances of increase in rates or fresh levy of taxes the statutory requirement of the Act, namely, the final notification under section 80 was not published, e.g.,

(1) The Oddalore Municipality for its increase in the rate of land tax from six pias to one anna per 80 square yards.

(2) In the Rajahmundry Municipality for the levy of companies tax, no notification under section 80 was issued.

(3) *Taxes not imposed even after due notification of the same.*—The Annalapur Municipality published a notification to levy water tax at 1 per cent on the annual value of lands and buildings with effect from 1st April 1921. The tax was not however levied either during 1921-22 or 1922-1923.

The Ellore Municipal Council resolved on 2nd October 1920 to levy tax on all pigs, goats and male buffaloes from 1st October 1920. The notification was duly published in the District Gazette, dated 9th November 1920. Nevertheless the animals were not taxed. It was noticed that fourteen pig yards were licensed during the year. Such defects were noticed in Pudukkottai, Secunderabad, and Negapatam Municipalities also.

The Tenali Council levied companies tax for the first half-year after due notification under section 80 of the Act. But during the second half-year, these companies were assessed only to profession-tax. In G.O. No. 225, Finance, dated 15th March 1922, Government have ruled that a municipal council has no power to do so without the sanction of Government.

(d) *Chairman's assessment not made by the Revenue Divisional Officer.*—Under rule 4 to Schedule IV of the District Municipalities Act, 1920, the Chairman's assessment has to be made by the Revenue Divisional Officer. This was not done in some of the municipalities (Siddapur, Kurnool, Kumbakonam, Berhampore, Chirah and Coimbatore).

11. *Wrong procedure resulting in loss.*—(a) *Delay in general revision.*—Under rule 8 of Schedule IV of the District Municipalities Act, 1920, the complete revision of the assessment books once in every five years is a statutory obligation. The Council has no power to exempt the Chairman from this statutory obligation.

imposed on him. It was noticed that in some of the municipalities the general revision of property tax due in previous years was not carried out and the old demands were allowed to continue.

In Vaniyambadi, the revision due in 1921-1922 was first postponed to 1922-1923 and then again to 1923-1924.

In Chirjeravaram, no revision took place consequent on the introduction of the new Act. The general revision due in 1922-1923 was postponed to 1923-1924 in spite of the advice given by Government in G.O. No. 192, L. & M. Min., dated 29th January 1923.

In Salem, the general revision of land tax which fell due in 1920-1921 was not carried out in that year or the next or even in 1922-1923. In Annasapur, the general revision should have been given effect to in 1922-1923. The Council passed a resolution to the effect that the Chairman with the help of the Committees should finish the revision before 15th March 1923. The revision was not completed even during 1922-1923. It is hardly necessary to point out that delay in the completion of the revision of the property tax leads to loss of municipal revenue.

(b) *Exemption of lands from property tax.*—Under sections 81 and 84 of the Act, the councils have no power to make a wholesale exemption in the case of lands. It was noticed that some municipal councils granted such wholesale exemption. In Tadipatri the arrears of the tax on agricultural lands for 1921-1922 amounting to Rs. 251-2-4 was written off by the Council and the imposition of the tax itself deferred till the Land Revenue settlement was completed.

In Prodatpur and Berhampur the councils resolved not to levy the tax on lands.

In Tanjore, the sites in the town extension sold to private parties have not been assessed to land tax since the year 1917-1918.

(c) *Issue of special notices during general revision.*—Some municipalities issued special notices for change in assessment during the time of general revision in addition to the notifications published in the District Gazette and by beat of town-tom. There does not appear to be a legal basis for the issue of such special notices during general revision. Since special notices were issued and revision petitions were called for within 30 days from the date of service of the special notices, petitions received very late had to be considered and reduction of rates granted. The reduction of rates thus unauthorisedly made amounted to Rs. 778-3-4 in the case of Pulgudi Municipality. The same defect was noticed in the following municipalities also:—Vilanguram, Berhampur, Nandyl, Bodunyakur and Berwade.

(d) *Profession-tax assessments cancelled after the issue of demand notices.*—In Trichinopoly there were many instances of profession-tax assessments which were cancelled by the Chairman after the issue of demand notices. This was contrary to the provisions of the District Municipalities Act, 1920, as stated in G.O. No. 2577, L. & M., dated 22nd December 1921.

(e) *Income from lands situated outside the municipality not taken into account for profession-tax assessment.*—The income was not taken into consideration for purposes of assessment to profession-tax in spite of the omission having been pointed out in previous audits of some of the municipalities, i.e., Palacole, Manargudi, Fuli, Pudukottam. The special attention of the Chairmen and municipal councils mentioned above may be invited to G.O. No. 2455, L. & M. Min., dated 4th November 1923, in this respect.

(f) *Profession-tax assessed at varying percentages.*—Contrary to the principles enunciated in G.O. No. 1740-M., dated 17th November 1920, some of the in Kurnool, Villupuram.

(g) *Hotel-keepers, etc., not assessed to profession-tax.*—The liability of municipal councils continued to levy profession-tax at varying percentages, e.g., hotel-keepers, boarding house-keepers and shop-keepers for assessment to profession-tax at least under Class X of rule 17 of Schedule IV of the Act was pointed out in many of the audit notes. The omission to assess them was held to be irregular

by Government in G.O. No. 175, Finance, dated 25th September 1922. Nevertheless the defect continued in many of the municipalities. The chief defaulters were Palghat, Vinnamangram and Berhampur.

12. *Reduction of licence fees or abolition of the same.*—Some municipal councils have either abolished or reduced the rate of licence fees on certain offensive and dangerous trades with retrospective effect. Neither reduction nor abolition of licence fees by the Council is contemplated by the District Municipalities Act of 1920 and the procedure followed is contrary to law and violates the instructions enounced in Memo. No. 2597-1, I. & M., dated 21st February 1923. The Narasimpet Municipality resolved in its resolution, dated 20th August 1922, to cancel a demand of Rs. 301 made for certain offensive and dangerous trades and determined to issue the licences free of fees from 1st April 1922.

The Sriangapa Municipal Council similarly resolved to levy a fee of Rs. 25 for coffee hotels and Rs. 2 for milk trade, which resolution was duly published in the District Gazette, dated 15th January 1923. In a subsequent special meeting held on 2nd March 1923, the Council modified the scale reducing the rate of Rs. 25 to a sliding scale of Rs. 2 to Rs. 8 in the case of coffee hotels, and altogether abolishing the fees for milk trade. This was given effect to from 1921-1922 with the result that all those who did not take out licences for 1921-1922 derived the benefit of the reduction. This action of the Council resulted in a loss of Rs. 908 to the Council.

The Kinnakannur Municipal Council in its resolution dated 23rd December 1922 reduced the fees for pottery kilns from Rs. 5 to Rs. 1 and this was given effect to retrospectively. The Coimbatore Council is another defaulter in this respect.

In *Conjeveram*, refunds were made amounting to Rs. 75 by giving retrospective effect in the reduction of licence fees sanctioned by it subsequent to the fixing of original rates.

13. *Omission in assessment.*—(a) *Growth of revenue not sufficiently safeguarded.*—In several municipalities the lists of buildings for the reconstruction or reconstruction of which licences were granted were not furnished to the out-door subordinates in order to enable them to watch the date of completion or occupation of such buildings, and make prompt report for their assessment. Instructions regarding this have already been issued in G.O. No. 2623-M., dated 8th December 1919, and circular instructions were also issued by me in this office L.F. No. 15-66-2366, dated 3rd July 1922. The following municipalities have to be mentioned in this connection, *Ettim, Parakkimudi, Tanjore, Pondicherry, Villanagore, Trappur, Berhampur, Chirakkal, Mannargudi, Udumalpet, Karur, Coonoor, Nellore, Vinnamangram and Yerravur.*

14. *Non-levy of excess water charges.*—In Manipulation house service connections were granted in about 100 cases and in all of these meters were fixed as required by the by-laws framed by Government in G.O. No. 808-P.H. M., dated 29th June 1922. Readings also were taken; but bills were not issued for the excess consumption of water except in four cases. A sum of Rs. 3,021 has to be recovered for the period from 15th November 1922 to 25th May 1923.

15. *Delay in the collection of revenue due to the Council.*—Delay in collection has been the subject of comment in recurring Government Orders in the case of many of the municipalities. In Salem, for instance, this delay has been commented upon in paragraph 4 of G.O. No. 436, M., Finance, dated 16th May 1923, and paragraph 12 of G.O. No. 2614, I. & M., dated 26th December 1922. Nevertheless the uncollected arrears were rising in almost all the municipalities mainly owing to delay in assessment, and consequent delay in the issue of bills and collection of taxes.

The arrears under items like private scavenging fees and licence fees, which should have been collected in advance, were very heavy in some of the municipalities. It is surprising that even the demand notices relating to private scavenging fees had not been served in several instances in the Vinnamangram and Berhampur municipalities up to the close of audit.

The Port Municipal Council in spite of its unsatisfactory financial position has presumably not taken adequate steps for the recovery of its 1,400-8-4 from Provincial funds being the pledgee charge-amounted out of municipal funds in 1916-17. The same has been asked to be effected in successive audits from 1916-17.

16. Such of the municipalities as are defaulters in this respect of prompt assessment and collection of taxes, are the worst offenders in making unauthorized diversions of un-marked funds and in postponing the payment of liabilities. It is desirable that the councils should be made to take adequate steps for the realisation of all arrears and expediting collection. The percentages which the collections bear to the total current and arrears demands have been noted below against the municipalities concerned.

17. In paragraph 22 of the consolidated audit report for 1921-1922 (read in G.O. No. 437, Finance, dated 31st May 1923), it was pointed out that numerous cases were noticed where municipal councilors had not paid their taxes.

The electoral rolls for 1922-1923 were test-audited in a few municipalities with a view to seeing how far the non-payment of taxes extended. It was noticed that in a large number of cases persons who were in arrears of taxes had been included in electoral rolls contrary to sections 45 (e) and 46 of the District Municipalities Act, 1920, and G.O. No. 1141, L. & M., Press, dated 17th June 1921, which said down that "All the taxes due from a person must have been paid in the preceding year in order to entitle him to be included in the electoral rolls".

This probably is one of the reasons for the arrears in the collection of taxes so noticeable in most of the municipalities. For, if the voters are made to realize that they would not be included in the electoral rolls unless and until they have paid all their dues, there seems no doubt that collection work will be much easier than at present. The Government have recently ordered that a certificate should be attached to the electoral rolls to the effect that every person whose name is entered in the electoral rolls has paid all the taxes due by him for the preceding year (G.O. No. 320, L. & M., dated 8th February 1923). It is hoped that this will have the necessary effect in expediting the collection of the taxes.

A second reason for the large uncollected balance of taxes is that article 146-A, Municipal Account Code, is never followed by the Chairmen. If the provisions of that article were strictly followed, it is only the latest year's instalment of taxes that would be in arrears and consequently there should not be a necessity to write off taxes as irrecoverable on account of their being 'time-barred' as is so frequently done at present.

A third reason is the utter indifference shown by most municipal councils in the matter of collections. Article 146, Municipal Account Code, requires that the demand, collection and balance statement should be placed monthly before the Council to enable the latter to watch the progress of collections. But this wholesome provision is very seldom observed with the result that the councils are very often ignorant of how the collection work is progressing. If the councils exercise a slightly more interest in this matter, it might go a long way in improving the collection of taxes and necessarily also in relieving the impoverished financial condition of most of the municipalities—due no doubt to their own actions.

18. *Injudicious and sometimes reckless writes-off sanctioned by the Council detrimental to the interests of the Council's finances*.—Want of scrutiny of write-off lists.—The want of care shown by the Councils in the scrutiny over items of taxes recommended to be written off as irrecoverable under section 118 of the District Municipalities Act, 1920, is still noticeable. This will be evident from the following examples:—

(1) In Saleem six items aggregating Rs. 6-10-0 were collected after they were written off by the Council.

(2) In Berlaupur the tax on buildings in four cases written off during 1921-22 was collected in 1922-23 and the demand restored.

(3) In Chhripot an item of land tax was written off four days after it was collected, and in the case of animal tax the party paid the tax and took out a licence subsequent to the Council's resolution sanctioning the write-off of the amount.

It is not clear how and on what documents subsequent collections were made after the amounts were written-off in the first two examples quoted above. Article 168, Municipal Account Code, enjoin that when writes-off are sanctioned the concerned receipts should be so stamped and defaced that further collections on them should be impossible. The procedure of allowing bill collectors to collect dues without proper lifts gives them opportunities for making unauthorized collections. This is highly irregular and needs to be effectively put a stop to.

19. *Discrepancy between the amount sanctioned to be written-off by the Council and the amount actually written-off*.—The following discrepancies between the amounts sanctioned to be written-off by the Council and the amounts actually written-off would show the lack of scrutiny of the write-off lists in the Municipal office, and this is only strengthened by the fact that some of the items were found recoverable and the taxes actually collected even before the sanction for write-off was accorded by the Council:—

Period.	Amount written-off as per resolutions.	Amount actually written-off.
Resolutions—		
11 (25, dated 25th March 1923)	Rs. A. P. 20 2 0	Rs. A. P. 45 5 1
11 (42, dated 25th March 1923)	100 7 7	55 15 2

20. *Undue generosity in the revision of property-tax and profession tax*.—In Tiruchanur Municipality in a case of house-tax revision, the original assessment of Rs. 4-8-0 per half year was increased to Rs. 9-6-0 per half year and the revised

tax was confirmed by the Chairman on revision petition. On appeal the Council reduced the tax to Rs. 2 per half year. The fact that the revised assessment fell below the original assessment itself was brought to the special notice of the Council. In spite of this and the Chairman's protest in the matter, the Council persisted in reducing the tax below the original amount. The same generosity for which this municipality has already earned a notoriety was noticed in the disposal of profession-tax appeals during this year also. In almost all cases of reduction the Chairman dissented from the views of the Council and a reference was made by the Chairman to the Collector on the subject who remarked as follows:—"The only course left to the Chairman is to assess according to his information and leave the Council to effect any unjustifiable reduction if they so will. It is no doubt disheartening to see honestly done work spoiled in a spirit of careless irresponsibility; but I see no immediate remedy. Time may lead the Councilors to think that 'sympathy' for the individual may be a wrong against the Council."

In consequence, the Council's disposal of profession-tax appeals formed the subject of strong comment by the Collector.

In Adoni, the total profession-tax assessment of Rs. 14,723 by the Chairman was reduced to Rs. 2,200 by the Council, i.e., to about 15 per cent of the Chairman's demand.

As further instances of such reckless remission were noticed, the following may be mentioned:—

In Dindigul an assessment for Rs. 100 was reduced to Rs. 17-8-0 during 1922-23/1, and Rs. 2 for 1922-23/2; another assessment for Rs. 17-8-0 was similarly reduced to 8 annas for 1922-23/1, although for the second half-year Rs. 9 was assessed and collected.

It is unfortunate that this reckless generosity should exist at a time when many of the municipalities are not able to wipe off their deficit balances and repay the diversions made from ear-marked funds, Government grants or loans.

For instance the Tiruvannamalai Municipality is not able to repay the diversions from the survey loan amounting to Rs. 9,424-11-2 at the end of March 1923 and still the Council did not realize its responsibilities in making such generous reductions.

21. *Irregular write-off*—(a) *Poverty remissions*.—Poverty remissions are freely granted as a matter of course, although it was brought to the notice of the Controller in successive audit notes that such remissions were not permissible under the District Municipalities Act, 1919. Section 118 gives the Council power to write-off only if the tax is found irrecoverable—vide G.O. No. 134, M., Madras, dated 27th March 1922. In Cochin about 103 lixas were written-off on account of poverty. The list furnished below furnishes the names of the municipality and the amount of poverty remission granted during 1922-23—

Municipality	Amount	No.	Rs.	S.	P.
Coimbatore	...	...	649	0	0
Chinnole	...	...	706	8	10
Perambur	...	...	21	10	9
Perambur	...	...	257	1	8
Villupattur	...	...	294	8	5
Tellicherry	...	...	111	8	7
			45	21	0

On a reference from the Chairman, Municipal Council, Coimbatore, the Government have once again upheld the above view in G.O. No. 1588, M., L. & M., dated 14th July 1923.

(b) *Write-off of private scavenging fees and licence fees*.—As regards private scavenging fees and licence fees, the fees have to be collected in advance and so the question of write-off cannot ordinarily arise. Thus in G.O. No. 265, M., Madras, dated 27th March 1922, the Government observed that "private scavenging fees are always to be collected in advance. Failure to collect them in advance is a neglect of duty on the part of the officer responsible." Similarly in Government Memorandum No. 2197-1, L. & M., dated 21st February 1923, the Government held that, "Licence fees should always be levied in advance before the issue of a licence, and can never be written off." Many of the municipal councils, however,

wrote-off private scavenging fees on the strength of the outdoor officers' report that no service was rendered. If this were a fact, there should have been the appreciation of the party and the report of the outdoor officer for the discontinuance of the service during the quarter in which the service was discontinued and there could have been no demand against the party in the demand register. The fact that there is a demand in the register indicates that service was rendered, but that recovery was not made within the quarter in which the fee was due as required by article 93 of the Municipal Account Code and contrary to the orders of Government.

Such write-offs were specially noticable in Comperveem, Solen, Madras and Tirupattur municipalities.

(c) *Valuation remissions in full.*—In Vinnuagram Municipality the tax on vacant houses was remitted in full in many instances, whereas section 37 of the District Municipalities Act, 1920, provides for a maximum remission of a moiety of the tax only. Full remission granted in such cases was irregular.

22. *Irregular admission of appeals and remissions.*—Every opportunity was taken to impress on municipal councils the necessity for strictly complying with the law in admitting revision petitions and appeals. The threat of surcharge has considerably reduced the number of illegal remissions or inadmissible appeals.

There were nevertheless a few municipal councils that did not look into the validity of appeals and whether such appeals complied with the provisions of the Act, viz., before admitting them and granting remissions on the same.

It was observed in the case of Guntur Municipality that in 15 cases appeals were admitted and reductions ordered to the extent of Rs. 38 though the tax in respect of which the appeal was presented was not deposited at the Municipal office on or before the day on which the appeal was presented as required by rule 26 (b) of Schedule IV of Act V of 1920. The parties were exempted by the Chairman on the score of poverty.

In Pullachi an item of property-tax for Rs. 15-5-0 was confirmed by the Chairman on revision petition and his decision communicated to the party on 15th January 1923. An appeal was presented to the Council on 31st March 1923 without paying the tax due, and on this the Council reduced the tax to Rs. 8-3-0 in its Resolution dated 6th May 1923. Hindupur Municipality furnishes many instances wherein appeals against the assessment of profession-tax received beyond the dates prescribed in rule 20 (a) (1) of Schedule IV of the District Municipalities Act, 1920, were entertained and the taxes reduced. In all the cases there was nothing on record to show that the Council specifically admitted the appeals under the proviso to rule 20 (a) of Schedule IV.

In Chinnole appeals presented in some cases of revision petitions, which were rejected by the Chairman as out of time, were entertained by the Council and remissions sanctioned.

In Villicherry, an item of profession-tax including education-tax amounting to Rs. 24 was written off on the ground that the party was exercising his profession outside the municipality. Under section 93 (1) and 96 of the District Municipalities Act, 1920, a person residing within the municipal limits for 60 days within the half year is liable to pay profession-tax in respect of his income from any source other than lands and houses within municipal limits—vide also G.O. No. 2236, L. & M., dated 12th November 1921. The write-off in the present case was irregular.

23. *Failure to take earnest money deposits resulting in loss.*—There were instances in which the original sales had to be cancelled by the Chairman owing to the original lessees having failed to execute agreements and pay their dues regularly. In spite of past experience, this tendency to allow parties to bid at auction sales without taking sufficient security as earnest money from them shows no sign of improvement. The non-observance of rules in this respect by many of the municipal councils deserves to be effectively checked as it leads to loss of revenue. Such instances were noticed in Guntur and Bellary. If the earnest money deposit is fixed at a reasonably high rate, the attempt on the part of the bidders to evade payments will not occur.

24. *Expenditure incurred before estimates were sanctioned.*—In several cases works were commenced without duly sanctioned estimates in spite of the ruling in article 300 of the Municipal Account Code and G.O. No. 320, L. & M., dated 23rd May 1922. In Srirangam a sum of Rs. 224-16-0 was paid to a contractor as first and final payment for whitewashing and tarring without a sanctioned estimate for the work. Similar instances were noticed in Vengalpet, Chidambore, Trichinopoly and Tinnevely municipalities.

25. *Expenditure incurred without allotment.*—In a few cases (e.g., Chidambore) expenditure on certain works was incurred even when there was no allotment of funds to meet the same. It is hoped that the instructions issued in G.O. No. 2072, L. & M., dated 5th September 1923, which require that a memorandum of allotment and expenditure should be furnished at foot of the bill, in each case, will be strictly followed, and such expenditure without allotment in future would be carefully avoided.

26. *Want of agreement in the case of leases.*—As in the previous years, numerous cases were noticed where contractors and lessees were permitted to do the work or were put in possession of the lease before the agreements and conditions were executed. In one case the Government had to warn the Chairman that "any loss incurred owing to the failure to take agreements from lessees is liable to recharge" (G.O. No. 439, Finance, dated 24th May 1923).

In G.O. No. 191 M., dated 15th February 1924, the Government have already warned the chairmen of municipal councils of the personal liability which they incur by allowing the renters to exercise their rights without duly executed agreements. The seriousness of the risk involved has been brought to the notice of the councils in successive audit notes and audit reports. Nevertheless, the irregularity continued as, for example, in Srivilliputtur, Tanjore, Kumbakonam, Palamcottah, Karur, to name only a few municipalities.

27. *Agreements wanting in the case of works.*—In the Vengalpet Municipality the objection regarding the payment of Rs. 471-11-2 (printing bill), noted in paragraph 78 of the Audit Notes for 1922-23/24, continued unanswered for a very long time, and at last in August 1923 it was explained that no agreement was executed by the printing contractor, though payment to the extent of Rs. 471-11-2 had been made to him. There appears to be no use in keeping the objection pending, in the face of the above explanation of the Chairman. But this serious irregularity greatly hinders any kind of check on payments made out of municipal funds, and chairmen of municipal councils need to be warned that they will be personally held responsible for any loss, and that such items will be unchargeable under rule 65(1) of Schedule IV of the District Municipalities Act, 1920, on the person authorising such irregular payments.

Similar irregular payments without agreements were noticed in Srirangam, Madurai, Pollachi and Palani municipalities.

28. *Terms of the agreement not enforced on the contractors.*—(a) There were many instances in which municipal councils had to forgo amounts which were otherwise recoverable from the contractors under the terms of a duly executed agreement, if prompt action had been taken, e.g., in Negapatam and Vengalpetam.

(b) Yet another method adopted by many of the municipal councils was to allow rates higher than those of original tender and agreement to contractors and suppliers and to give renters and farmers of tolls, etc., liberal remissions even after a duly executed agreement. A contract in such cases is essentially a speculation and, if the rates go in favour of contractors, they do not share the unexpected profits with the councils, and similarly if the rates go against them, they have no claim on the councils that they should share their losses with them.

This general principle enunciated by Government in paragraph 2 of G.O. No. 1235, M., P. L., dated 30th July 1923, may well be borne in mind by the councils in dealing with applications for higher rates. Instances of such liberal remissions and allowing of higher rates to suppliers were noticed in Tanjore, Trichinopoly, Chidambaram, Negapatam and Edamattur.

29. *Want of revised agreements for payment of higher rates.*—Another kind of irregularity that is commonly met with is that councils allow higher rates to contractors for supplies made and works executed without taking a revised agreement. In one case, Government held that the Council's resolution will not by itself be binding on the Council unless in pursuance thereof the Council enters into a fresh agreement with the contractor in accordance with the provisions of section 48 (j) of the District Municipalities Act, 1920—vide also G.O. No. 1164, L. & M., dated 19th May 1923. Such cases were noticed in Vaniyambudi and Mayavaram.

30. *Devices to avoid refund of Government grants.*—In G.O. No. 716, Law (Education), dated 3rd May 1921, a sum of Rs. 1,560 was sanctioned for the opening of a library for the Guntur Municipality. The Council spent Rs. 1,168-10-3 on 31st December 1922, and Rs. 6-16-8, as railway freight in January 1923. The balance of Rs. 393-6-8 should have been refunded to Government under G.O. No. 1928, Law (Education), dated 23rd October 1922. With a view to avoid refunding this amount to Government, the Chairman issued a cheque for the balance in favour of a book seller as advance for supply of books. Books to the value of Rs. 237-6-8 only were supplied during the remaining months of the year leaving a further balance of Rs. 156-1-9 at the close of 1922-23 with the supplier. The action of the Chairman was highly irregular as it appears to have been done deliberately to avoid the refund of the unspent amount to Government.

In Nellore Municipality, a cheque was drawn for Rs. 3,819-7-31 on 31st March 1923 and kept on hand till 23rd April 1923. This procedure was opposed to article 228 of the Municipal Account Code, but was explained to be due to the fact that the work was defective in regard to some items of work and needed re-estimation. At the time of check-measurement, no such remark was made by the check-measuring officer. These facts go to show that the cheque was drawn to prevent the lipect of the Government grant for the work.

31. *Delay in refunding the unspent balance of Provincial grants.*—Owing to want of funds, some municipalities have not yet refunded the unspent balances of special Provincial grants in spite of repeated orders of Government. The worst defaulters in this respect are Vaniyambudi, Tirupattur, Tiruchinopoly, Gudiyanam, Kumbakonam, Adoni, Rajahmundry and Negapatam.

Some of the municipal councils devised means to avoid refunding of unspent balance, by revising the estimates by the provision of higher rates.

For instance, in Nellore, the original estimate for the construction of a septic ward for Rs. 5,045 which was approved by the Superintending Engineer in 1917 was revised to Rs. 6,781 by providing higher rates for many items. The approval of the Superintending Engineer for the revised estimate was not obtained. The original contract was cancelled and a new contractor was entrusted with the work. These changes resulted in a loss of about Rs. 1,380. This sum should otherwise have been refunded to Government.

32. *Abnormal delay in check-measurement or in payment.*—Instances of abnormal delays in check-measurements were noticed.

In Kumbakonam, for instance, the measurements for the repairs to the 'rest and bath market' were recorded on 27th March 1921. The work was check-measured by a councillor on 15th August 1921, i.e. five months after the completion of the work. The check-measurement certificate ran as follows: "It is not possible now to find out the difference between the old work and the repairs. I have been seeing these repairs when it was being done. The bill may therefore be passed." The Council referred the bill to another councillor again for verification on 26th August 1922 who found the work not susceptible of check-measurement at that distance of time. The Council finally decided to pay the contractor his claim in full which it did on 8th February 1923.

33. *Delay in payments.*—Instances of delays in payments to contractors were noticed in many cases, e.g., in Negapatam the work of putting a shed in front of toll gate No. 1 was check-measured on 21st December 1921; but payment was made only on 25th March 1923, i.e., after a delay of over two years and three months.

In Tanjore, the work of constructing four meter chambers was measured on 26 September 1917, 16th September 1917 and 22nd September 1917 and check-ascertained on 2nd October 1917 and 3rd October 1917, but payment was made in December 1922, i.e., after a delay of nearly five years to the widow of the contractor.

34. *Irregular advances.*—Though advances to contractors are not admissible under article 346 of the Municipal Account Code, such advances were made before the work was actually executed and measured. Thus, in Trichinopoly, two accounts of Rs. 1,860 each, were advanced to two contractors on the last day of the year 1922-1923 for gravel supply. They were adjusted only in July 1923.

35. *Delay in adjustment of advances made to councillors.*—In Udumalpet, an advance of Rs. 320 was given to the Vice-Chairman and Rs. 209 to a councillor for carrying out works departmentally. Such advances are prohibited under article 373 of the Municipal Account Code and the system was also unequivocally denounced in paragraph 5 of G.O. No. 467, Finance, dated 31st May 1923.

Madras and Coorga municipalities furnished many instances wherein advances were given to councillors without the previous sanction of the Council and the amounts were allowed to be in their possession for a long time.

36. *Delay in adjustment of advances.*—In Tiruvannamalai, a sum of Rs. 2,334-2-8 advanced to a contractor during 1919-1920, 1920-1921 and 1921-1922 was pending adjustment at the close of the year. No action appeared to have been taken to effect the recovery of this advance, though it was pointed out in the Audit Report for 1921-1922.

In Tanjore, Villainagaram, Poddapet and Beaswadi there were large amounts of advances pending from previous years. Some of the persons to whom the amounts were advanced had already severed their connexion with the municipalities.

37. *Defalcations.*—Since the submission of the Consolidated Audit Report for 1921-1922 there were as many as nine defalcations and temporary misappropriations reported to this office and the amounts involved ranged from Rs. 1 to Rs. 874-8-2.

*Money kept out of account.*—(a) Tender deposits received from contractors were not brought to account promptly in the Coorga and Narasimhapet municipalities. This was opposed to the specific ruling contained in note 1 to article 373 of the Municipal Account Code.

(b) Provident Fund subscriptions deducted from pay bills were not remitted in full into the post office savings bank account before the close of the month. The balance left unremitted was not credited in the municipal cash-book in Berhampur and Tedastri municipalities.

(c) In Tulpuri municipality, the Headmaster of an elementary school remitted all the collections from 1st December 1922 to 30th April 1923 in one lump sum towards the end of May 1923. The Headmaster was systematically delaying the submission of monthly demand, collection and balance statements required by article 194 of the Municipal Account Code, nor were they called for by the municipal officer.

(d) The Manager of the Srirangam municipality who received Rs. 153-16-3 in two instalments on the 5th and 8th November 1922 from the municipal vault as realisations through the court, misappropriated the amount and omitted to credit it till 14th February 1923 until it was detected during the inspection by the Assistant Examiner. The Manager seems to have been misappropriating municipal money from April 1922. The amount embezzled amounted to Rs. 350-13-5 in all and related to money-orders received, licence fees, licence amounts, cost of rates, etc. There is still a sum of Rs. 5-8-8 sent by the Official Receiver, Trichinopoly, by money-order not accounted for by him.

(e) In Godgattam, a sum of Rs. 280 was drawn from the Government treasury in advance for the construction of a water tap in the Government Girls' school, Godgattam, on 6th November 1921. This was not brought to municipal accounts for nearly six months till 2nd May 1922.

(f) In Poddapet, a sum of Rs. 5-6-6 due to the Superintendent, Government Press, was shown as disbursed out of the permanent advance on 24th August 1922. This has actually been remitted into the treasury on 24th July 1923 only, i.e., after a delay of 11 months.

25. *Defalcations by shroffs of municipal offices.*—In some instances defalcations by shroffs were rendered possible by the neglect of the following rules:—

(1) The Head Accountant failed to check the contingent bills with the sub-vouchers before passing them for payment.

(2) The cash-book was not written up from the challan and other subsidiary registers as required by article 298 of the Municipal Account Code.

In Bezwada, the shroff committed two temporary misappropriations of Rs. 8 and Rs. 9 respectively owing to the omission to observe the above rules.

In Tiruvalur, the want of proper and effective supervision resulted in various defalcations committed by the shroff of the office and the bill-collectors and other subordinates. In many instances amounts collected from parties were not remitted into the municipal treasury and in some others amounts brought to the challan register were not credited to the accounts.

In the same municipality a sum of Rs. 878-5-2 as per ditta was remitted to the bank on 4th April 1923. There was no credit in the pass book. The amount is understood to have been misappropriated by the remittance peon and the shroff. The case is under police enquiry and the amount has not yet been recovered.

26. *Defalcations by bill-collectors.*—There were many defalcations committed by bill-collectors which were the result of the non-observance of the following rules laid down in the Municipal Account Code:—

(1) Register of bills issued not kept for error books.

(2) All the bill books were entrusted to the bill-collectors for an indefinite period on the plea of securing better collections.

(3) Want of proper check of the outstanding bills on the date of collection.

(a) In Madura, a defalcation of Rs. 30 was committed by a bill-collector which was detected during the audit of the first half-year accounts. The bill-collector was dismissed from service.

(b) In Pollichchi, a bill-collector was systematically committing defalcations by withholding the amounts from remittance since October 1922. At the time of audit the bill-books were produced after a long delay; and a sum of Rs. 541-7-3 was remitted to the office on behalf of the bill-collector during the audit without the bill-collector's collection book. About eight bill receipts were got from parties and the dates entered therein showed that Rs. 75-9-7 collected on those receipts were all embezzled by him. The extent of the defalcation could not accurately be ascertained in the absence of all such other receipts granted to parties. The check of outstanding bills at each time of remittance prescribed in articles 141 and 146 of the Municipal Account Code has been neglected by the tax clerk which resulted in this grave irregularity.

In Dinidigal and Salem municipalities also such defalcations by bill-collectors were noticed.

In Virudnagar, the shroff of the municipality reported on 12th December 1922 that out of Rs. 1,782-11-2 left by him in the cash safe the previous day, a sum of Rs. 491-7-8 was missing. The Vice-Chairman who inquired into the matter, directed the shroff to make good the amount which he did. The shroff was then kept under suspension and eventually dismissed. In this case, the defalcation does not appear to be due to any defects in the rules or procedure.

It is regrettable that in some cases where irregularities of the kind noticed above are brought to the notice of municipal councils, they are not prompt in taking effective action to check such irregularities due to non-observance of rules in the Municipal Account Code and prevent their recurrence:—

(a) The Budget Audit Notes and Audit Report for the second half-year of 1921-1922 dealt with serious irregularities in procedure indicating temporary misappropriations of municipal money to the extent of about Rs. 2,000. These notes and report sent by registered post to the Chairman were received by the Manager, who finding that many irregularities had been pointed out, therein is reported to have destroyed them without bringing them to the notice of the Chairman. The

amount misappropriated has been fully recovered from the sheriff. The Manager was mainly responsible for this as stated to have absconded. A confidential report on the defalcations and misappropriations was sent to the Chairman on 6th May 1923 after a special inspection of the accounts by the Deputy Examiner of Local Fund Accounts. The action taken on this report has not yet been reported.

(b) In Salen a bill-book containing ten bills relating to 1920-21 was lost by a temporary bill-collector. When this was brought to light during audit, no adequate steps were taken in the matter beyond issuing duplicate bills for all the outstanding.

(c) In Calicut, bill receipts in support of uncollected taxes were found missing in many cases during the audit conducted in September 1922. The seriousness of the defect does not appear to have been realised by the executive head of the administration as will be evident from the reply furnished to the audit objection that the amount will be recovered from the person responsible for the loss of the receipts. The amount was credited on 6th September 1923 after a delay of over one year. The neglect of rules led to similar defalcations in the past in this same municipality.

Since 1919, Trichinopoly municipality has afforded scope for its bill-collectors to commit serious defalcations every year. In the light of these experiences, it is surprising that the Chairman ordered on or about 20th November 1922 that all collections should be remitted by the bill-collectors direct to the sheriff without a simultaneous check of the outstanding bills. This relaxation made matters worse as the tax clerks in this municipality were negligent of their duties. In fact the order emboldened a bill-collector who, in collusion with a tax clerk, committed defalcations to the extent of Rs. 425-5-0 which was detected only during audit. The two subordinates were placed under suspension pending further inquiry in the matter. In making the relaxation, the Chairman only perpetuated what was not approved by Government in their Order No. 119, L. & M., dated 21st January 1920.

40. It will be observed that in all the above cases the defalcations were not due to any defect in the system, and that the frauds were rendered possible by want of supervision and neglect of the rules laid down in the Municipal Account Code. Frauds such as those detailed above do not start until a bill-collector or a clerk finds that the supervision of his superior officers is lax. Indeed, as the Auditor-General-in-India observed: "It is no exaggeration to say that negligent officers create dishonest subordinates." This tendency towards frauds can be counteracted only by a closer and more intelligent supervision on the part of the responsible persons, and a strict compliance with the rules in the Municipal Account Code.

41. *Adverse Closing Balances.*—At the end of 1922-23, the Revenue Account of as many as 24 municipalities closed with adverse or nil balances. A list of such municipalities with the extent of the deficit is given below. (Vide list attached).

The adverse balances were chiefly due to—

- (a) late assessments and late issue of bills;
- (b) slackness in collection;
- (c) reckless write-off and remissions;
- (d) want of proper supervision over the assessments;
- (e) non-compliance with the provisions of the Act in the matter of assessments.

Some or all of the following devices were adopted by the councils to get over the financial difficulty

- (1) Capital receipts utilized for ordinary expenditure (Srirangam and Ottasekund).
- (2) earmarked funds such as Provincial grants, deposits, water and drainage tax fund and loans diverted for ordinary purposes of administration. This was the case with all the municipalities working with a deficit balance.
- (3) The payment of bills and other liabilities postponed. In some cases, this led to litigation and further expenditure by way of interest on overdue bills.

In Salen municipality, for instance, there was a delay of over 8½ years.

In Anantapur, a sum of Rs. 3,631 is due to an English Firm for the supply of science apparatus to the high school (since transferred to the control of Government). In spite of the fact that Government have sanctioned a grant for the payment of this specific item, the liability remains undischarged.

In G.O. No. 1616, L. & M., dated 13th August 1931, Government expressed the view that the credit of local bodies should be maintained at a higher level and to watch this, they called upon all municipal councils to submit half-yearly returns of outstanding bills. Those having large outstanding liabilities are shown hereunder. Attention is also invited to G.O. No. 199, L. & M., dated 21st January 1934, published as notification No. 70 in the Port St. George Gazette, dated 20th January 1934.

(4) Another device adopted was that of retaining the amount deducted as subscription towards Provident Fund and utilizing the same for expenditure without reuniting it into the Post Office Savings Bank as required by the rules.

(5) Yet another device was not to adjust from the municipal funds the bonus due to the several subscribers to the Provident Fund. Under the Provident Fund Rules, the subscribers are entitled to a guaranteed rate of 4 per cent and the failure on the part of the Council to invest the bonus amount promptly in Post Office Savings Bank results in such amounts not earning interest.

43. Register of bills passed for payment.—In many of the municipalities, the register of bills was not written up concurrently. Bills received with covering letters were not entered in the register with the result that the liabilities on any date could not be accurately ascertained.

44. An instance of unnecessary and extravagant expenditure.—In connection with an election held on 13th May 1922, the Chairman, Municipal Council, Revada, would appear to have noticed an objectionable course followed by a polling officer in entering on the ballot paper a voter's number in the electoral roll. The Chairman

referred the matter to Government. But before orders were received, the Chairman consulted as many as four pleaders with a view to fortify himself with legal opinion as to the validity of such votes, and paid fees to each of them, the total amount so paid from municipal funds being Rs. 65.

In consulting four different lawyers and debiting their fees to municipal funds, the Chairman would appear to have disregarded the very first canon of financial propriety, viz., that every public officer should exercise the same vigilance in respect of expenditure incurred from public revenues as a person of ordinary prudence would exercise in respect of expenditure of his own money.

In Guntur, the Land Acquisition Officer sanctioned two awards one on 25th April 1929 and the other on 3rd November 1930. As the amounts were not paid into the Treasury, a sum of Rs. 4,885-9-3 had to be paid from municipal funds as interest on the award amounts not deposited in Court.

In the same municipality, a sum of Rs. 64-6-11 was paid as penal interest on overdue instalments in repayment of loan. The payment of the penal interest could have been avoided if the collection of the taxes had been made properly and if care had been taken not to exceed the budget provision.

45. *Unprofitable outlay—Purchase of materials long before use.*—In Dharapalem municipality, 6 cwt. of antiseptic paint costing about Rs. 1,500 was purchased in April 1929 and 9 cwt. in June 1930. When the paint was issued for use during 1929-30, it was found to be unfit for use.

46. *Double payment.*—There were two cases of double payments for materials supplied—one in Virupatham municipality (Rs. 28-14-6) and the other in Barwada municipality (Rs. 373-5-6). The recovery of the overpayments is awaited. If the purchases had been noted in the stock accounts and payments recorded against the entries concerned, such double payments could have been avoided.

47. *Irregular payment in the supply of bulls.*—The payment to contractors for the supply of bulls seems to afford much opportunity for irregular payments. In Palni municipality, for instance, a sum of Rs. 150-15-1 was disallowed by the municipal office from the bills relating to the period from October 1919 to February 1920 on the ground that the bulls had not been supplied. In his petition, dated 21st May 1923, the contractor stated that he requested some one else to supply the bulls on his behalf and that he had sustained heavy loss by the contract. Thereupon, the Council sanctioned the payment in its Resolution, dated 12th June 1922, and the same was paid during 1922-23. When the original muster roll bore testimony to the non-supply of bulls, it is not understood how the claim was admitted by the Council.

48. *Receipts utilized directly for expenditure.*—In Negapatnam municipality, a self-check for Rs. 444-15-0 was drawn by the chairman on 16th June 1922 and the same was cashed on 21st June 1922. The amount was, however, brought to the petty cash book on 19th June 1922 and Rs. 362-5-0 debursed therefrom on that date. Evidently, the expenditure was met out of current collections. This was irregular and contrary to article 14 of the Municipal Account Code.

49. *Verification of stock.*—The annual verification of tools and plant required to be done at the end of March under article 347 of the Municipal Account Code, and the quarterly verification of water-works materials under article 332 of the Municipal Account Code were not being done by many of the municipal chairmen. Delay in verifying the balance of stores is apt to defeat the very object of verification. In almost all these cases the attention of the councils was invited to G.O. No. 469, Finance, dated 17th May 1923. It is unfortunate that the importance of a regular annual verification is not sufficiently realized.

50. *Irregularities in stock account.*—At the time of verification in July 1926, the Chairman of the Minslipatnam municipality noticed a shortage of 83½ tons of fuel. On his report of the shortage, the Council resolved to write off 43 tons as dryage and recover the cost of the balance of 39½ tons, i.e., Rs. 262-2-5 from the person responsible for the loss. This Resolution of the Council, dated 9th March 1927, has not been given effect to yet and the recovery had not been made to the end of March 1928.

In Chidambaram, there was a deficit of coal to the extent of 18 tons 6 cwt. and 102 lb. to the end of March 1922 and it was stated that the matter was under investigation. No further action appears to have been taken to fix the responsibility for the deficit. The weekly returns of the Pumping station submitted to the Sanitary Engineer did not appear to have shown the receipts, issues and balances of water-works stores at the close of every week.

51. *Sale of municipal stores to councillors and others*.—It is not desirable that materials stocked for municipal purposes should be sold to municipal councillors and others unless they are actually found to be unserviceable.

In Barwala, 54 r.f.s. of double headed rails were sold to two or three councillors at a cheaper price than what the railway authorities were charging.

Tarrol and coal were similarly sold to private persons and public bodies without proper authority.

52. *Private scavenging fees not self-supporting*.—Under section 154 of the District Municipalities Act, 1920, the scale of private scavenging fees to be levied shall be with reference to the cost of the service. In as many as 16 municipalities, the service was not made self-supporting, though this was repeatedly pointed out in audit.

53. *Contingency Plant Depreciation Fund*.—A depreciation fund on account of contingency plant, as contemplated in article 105-A of the Municipal Account Code, was not opened by many of the municipal councils though pointed out in previous audits.

54. *Principal defects in the execution of public works*.—Tenders were called for. Under article 333 of the Municipal Account Code, tenders have to be called for, for the execution of all works the estimated cost of which exceeds Rs. 500. This rule would seldom appear to have been observed by many of the municipal councils. In G.O. No. 1779, L. & M., dated 11th August 1923, Government issued draft rules on the subject, and the attention of the councils may be invited to these rules published in page 374 of the Port St. George Gazette, dated 14th August 1923.

55. *Council's sanction not obtained before entering into contract*.—Under section 68 (2) of the District Municipalities Act, 1920, the sanction of the Council has to be obtained for entering into a contract the value or amount of which exceeds Rs. 500. This rule also is not observed by some municipal councils.

56. *Non-submission of monthly accounts of materials-at-site*.—In the case of a work in Salem municipality, the cost of which exceeded Rs. 15,000, materials such as iron work, cement and wood were purchased to an amount exceeding about half the cost of the work. No materials-at-site accounts were, however, maintained.

Other municipalities wherein a similar defect was noticed were Pollachi, Berwala, Madurai and Oudalore.

57. *Recovery of excess and inadmissible payments*.—In the Trichinopoly municipality, recoveries to the extent of Rs. 6,892-12-0 were actually effected as the result of audit objections raised during 1922-23/I and 1921-22/II.

Needless to say, this indicates the perfunctory manner in which bills, etc., are checked in the municipal office before payment. It also brings to prominence the necessity for a very careful audit of local bodies' expenditure and watchfulness on the part of the Audit department.

58. *Surcharge*.—During the year under report, the surcharge provisions of rule 30 (1) of Schedule IV of the District Municipalities Act, 1920, had to be applied and certificates were issued in the following cases:—

Name of municipality.	Amount surcharged		Particulars of surcharge
	Rs.	P.	
(1) Trichinopoly	75	12 0	Illegal penalties granted by the retired to the slaughter-house contractor. The surcharge was on the entire amount.
(2) Do.	396	4 9	Overpayment made by the chairman to the contractor for painting work at the local pump.

Name of municipality		Amount overcharged	Particulars of overcharge.
(3) Rajahmundry	..	4 0 7	Final interest paid by the chairman on overdue instalment of principal with interest towards repayment of loan due to Government.
(4) Do	...	107 0 0	Illegal subtraction of professional tax by chairman after issue of demand notice.
(5) Do	...	144 0 0	Do.
(6) Do	...	11 8 0	Do.
(7) Chintalapudi	...	278 14 9	Illegal payment of conveyance allowance drawn by the chairman.
(8) Tiruvallur	...	1,327 5 11	Amount of toll list due but not realized by the chairman.
(9) Do	...	160 5 6	Illegal payment of travelling allowance made by the chairman.
(10) Do	...	11 8 0	Amount of missing bills in charge of the Revenue Tax clerk.

In the first two cases and in the last case the amounts were fully collected. In the third case, the amount was remitted by Government. In the other cases appeals have been made to set aside the surcharge order. A report has been received that the appeal in respect of item (7) above has been dismissed by the District Judge. The above surcharge certificates refer to the entire transactions of the year 1922-23 of all the 80 municipalities in the Presidency. The fact that there have been so few cases of overcharge indicates the caution exercised by the Audit department in enforcing the surcharge provisions.

#### PART II—LOCAL BOARDS.

59. During the year under review the initial audit of receipts and expenditure of local boards continued to be done by the local Audit branch of the Treasury Deputy Collector's office as the scheme of audit formulated in G.O. No. 1016, Finance, dated 27th November 1922, was not given effect to during the year and only a test-audit was conducted as usual by the peripatetic staff of the Examiner of Local Fund Accounts. Even during such test-audit numerous financial and other irregularities were noticed which had not been detected during the initial audit.

60. Delay in the disposal of outstanding objections.—The inordinate delay in the disposal of objections raised both in the initial audit by the Treasury Deputy Collector and the test-audit by my staff continued even during the year under review, in spite of the repeated criticisms of Government on the individual audit reports. It is hoped that the general warning conveyed in G.O. No. 1674, L. & M., dated 27th June 1923, will have the desired effect.

61. As regards the objections raised by the Treasury Deputy Collector, the rule that the objection statement received from the Treasury Deputy Collector should be returned with replies within 20 days of their receipt, was seldom observed by many of the local boards.

For instance, in the Amantapur district the total amount kept under objection at the end of February 1923 amounted to Rs. 51,503 relating to the years 1913-19 to 1922-23 out of which Gooty and Pennakonda taluk boards had nearly Rs. 20,500 and Rs. 28,000 respectively to account for. In spite of several reminders and special letters issued by the Treasury Deputy Collector, the objection statements and further remarks were not returned with replies. This state of affairs was also brought to the notice of Government in the last Audit Report and the explanation of the presidents concerned were called for in paragraph 3 of G.O. No. 696, M., Finance, dated 18th August 1922. The President, District Board, has however yet to furnish the same to Government.

62. Defalcations.—Since the submission of the last Consolidated Audit Report, 13 cases of embezzlement of local boards' money ranging from Rs. 25 to nearly Rs. 3,000 were reported. In almost all cases the amounts were recovered.

It is regrettable to note that in some cases the delinquents were none other than the presidents of union boards and taluk boards. The president of one union board returned in his hands over Rs. 2,000 without crediting into the treasury. He is reported to have absconded.

63. Amounts drawn from the treasury for expenditure kept out of account.—

(a) A sum of Rs. 2,532 was drawn by the president of a taluk board in December 1921 for the construction of a school building and the same remained unaccounted for by him up to the close of audit in May 1923. The money has been kept out of account for nearly a year and a half so far, and this is said to be on the entire responsibility of the president.

(b) The ex-president of one union board committed grave financial irregularities as a result of which the Board resolved to prosecute him and the ex-union clerk. They were, however, acquitted by the Deputy Magistrate. The irregularities brought to notice included the misappropriation of the following amounts drawn from the treasury for expenditure:—

Rs. 20-13-4 drawn in June 1921 for payment to lighting contractor.

„ 121-1-4 drawn in July 1921 as advance for arrangement during fairs and festivals.

„ 65-0-0 drawn in July 1921 for purchase of cholera medicines.

(c) The union clerk, Athiraman union (Ramanad district), committed a defalcation to the extent of Rs. 2,675. The money was drawn for lighting contingencies, such as purchase of chimney, burners and ropes to lights, etc. Having correctly made out the contingent bills and written out the register of contingent charges, the clerk obtained the signature of the president, union board, to the certificates and pass orders in the bills; subsequently, he altered the amounts in the bills and registers by prefixing a digit to the actual amount in figures in such a way as not to substantiate the alteration in the amount written in words. The master, who was entrusted with the duty of checking the bills acted in collusion with the union clerk, and after encashment paid to the president only so much of the amount as was actually passed by the president. All the defalcations were due chiefly to the non-observance of the rules prescribed for the scrutiny over collections and want of effective supervision over the work of the subordinates and not to any inherent defects in the rules and procedures.

64. Most of the financial irregularities were observed in Public Works expenditure. A few typical cases are given below:—

*I.—Irregular procedure to avoid lapse of budget grants.*—Instances were noticed in which presidents of local boards drew money in advance and long before the receipt of the intimation for which the money was intended, to prevent lapse of budget grants.

Another method adopted by some of the local boards to show expenditure was to make payment to contractors for materials not brought to site of work, or for work, for which there are no sanctioned estimates. In Salem district, for instance, it was noted both in the measurement book and contract certificate that the bills were with the contractor. The payment was nevertheless made, evidently to show expenditure and prevent lapse of budget allotment.

In Ramanad district, payment was made for lime at kiln. In Chingleput district, a sum of Rs. 1,700 was paid on 31st May 1922 on account of collection of brick at kiln.

65. The following are some instances where works were commenced and payments made before the estimates were sanctioned by the competent authority, doubtless with the object of either preventing lapse of allotment or perhaps forcing the hands of the sanctioning authorities to sanction estimates which otherwise would not have been sanctioned.

In the case of a bridge work in Kanna district costing Rs. 30,260 the final sanction of the Superintending Engineer was obtained only on 31st June 1922, in the meanwhile, the work had been started and payments made to the extent of Rs. 15,971-12-10.

66. Want of estimate or appropriation or incurring of expenditure in excess of the sanctioned estimates or allotments.—The rule that no work should be commenced or expenditure incurred without sanction to the estimate was, of course, infringed by many of the local boards. The chief defaulters in this respect were the district boards of Godavari, Bellary, Malabar, Kanna, Salem, Madras, Karnool, Ramanad,

South Arcot, Ganjam and Vizagapatnam. In the Vizagapatnam district, revised estimates for works in a few cases were sanctioned only after final payments were made.

67. *Want of agreement.*—(a) In spite of the several stringent orders of Government warning the presidents of local boards against the personal risk involved in permitting contractors to start works before executing the necessary agreements, the importance of the instructions do not seem to have been realized by many of the local bodies. Most of the administrative officers would seem to think that it is merely an audit formality which can be complied with after it is pointed out in audit. The attention of the presidents of local boards is invited to G.O. No. 1344, L. & M., dated 19th May 1923.

Such omissions were very common in the following local boards—Kutim, Guntur, Nellore, Salem, Tanjore, Kurnool and Malabar. The omission to take agreements was also noticed in the case of leases thereby leading to much loss of revenue. Attention is invited to the principle in G.O. No. 191 M., dated 12th February 1920.

68. *Payments at rates higher than those in the agreement.*—Another common defect noticed in the Public Works expenditure was the tendency on the part of the officers concerned to pay the contractors at rates higher than those provided for in the agreements, even without the specific sanction of the Board or without revised agreements. The special attention of the presidents needs to be invited to paragraph 3 of G.O. No. 1344, L. & M., dated 19th May 1923, in this respect, e.g., in North Arcot, Bellary, Hassan, Kurnool and Chingleput districts.

69. *Defects in agreements.*—Agreements are sometimes drawn up in ambiguous terms, that payments will be made at estimate rates, or at R.M.R. Book rates, etc., when there are neither estimates nor R.M.R. ignoring the fact that such imperfections are likely to be taken advantage of by the contractors to the detriment of the local bodies. Such defects were noticed in Tanjore and Chingleput districts.

70. *Agreements for the same work revised every year.*—A practice followed in one or two district boards was that of taking agreements every year for the same work and from the same contractor when the work lasted for more than a year, e.g., in Kurnool.

71. *Non-maintenance and improper maintenance of materials at site account.*—The required attention is not given to the correct preparation of monthly metal returns and prompt submission of such returns to the authorities concerned as required by rule 232, Local Boards Manual. The returns for several months are submitted after considerable delay at one and the same time, articles lost or otherwise unaccounted for being deducted from the balances without obtaining the previous sanction for the same. In this respect, the worst defaulter was the Kurnool District Board Engineering staff. In this case large quantities of iron materials were purchased in December 1920 and February 1921 for laying out a train line. But the monthly metal returns were not submitted at all for two years. The work for which the materials were purchased appears to have been commenced in September 1921 and completed in March 1923 only. In the course of construction, materials valued at Rs. 1,345 would appear to have been stolen. The loss is stated to have been noticed by the Assistant Engineer in charge in October 1921 and December 1921, who merely submitted a report to the President, District Board, and showed the materials lost as losses in the monthly metal return book. As the extracts from these were not submitted to the Engineer, the District Board Engineer himself does not seem to have known anything about the loss. No report was also sent to the Examiner of Local Fund Accounts as required by rule 141 of the Local Boards Manual, until the question of write-off came up for consideration. After a reference from this office in June 1923, the returns for all the months from April 1921 to March 1923 were submitted by the Assistant Engineer in one instalment in August 1923 to the District Board Engineer.

In some districts, materials-at-site statements were not regularly submitted by the subordinates, while in some others they were asked to be submitted along with payment vouchers instead of regularly every month. Madurai is an instance of the former and Nellore, of the latter.

72. *Irregular up-keep of contractor's account.*—Proper safeguards were not taken in respect of materials supplied to the contractors departmentally as required by rule 351, and Executive instructions Nos. 475 to 484, of the Local Boards Manual. Government have stated in a certain case 'When materials are issued to contractors, receipts should be obtained immediately and the cost debited in the ledger to their accounts. Delay in such cases should not be tolerated.' These defects were noticed in South Kanara, Rannad and Malabar districts.

73. *Delay in payment.*—The principle of prompt settlement of contractors' claims is more honoured in its breach than in the observance thereof. There have been cases where the contractors' claims had not been settled for years together, as for example, in North Arcot, where the delay extended to nearly ten years. A much worse type of delay in payments was that observed in the Salem district in respect of payments on master rolls made after two years. How the disbursing officer was able to identify the payees after nearly two years and how he managed to get them together poses comprehension.

74. *Delay in check-measurement of works.*—Check-measurement of works is mainly intended to prevent fraudulent measurements and errors in measurements. This object is frustrated if they are made after considerable delay as was noticed in many instances or not made at all. There are certain items of work such as earth-work, sectioning, cleaning drains, removing prickly-pears, etc., which require early check-measurements. In Vazhapattam, a repair to a certain building including repairs to a thatched roof executed in 1913, was check-measured in 1923 after the building was again repaired in the interval in 1920.

In the same district, the collection of 5,151 cubic feet of rough stone measured on 2nd March 1917 was check-measured on 19th July 1920 and final payment made in March 1922. In Cuddapah, delays in check-measurement and consequent delays in payment of claims, ranging from two to five years in certain cases, were noticed. In Salem district, the original measurement in the case of a work was made in January 1920, while the check-measurement was made in January 1922. Considering that the nature of the work was earthwork, cleaning drains, etc., the utility of such belated check-measurement seems questionable. Similar defects were noticed in the local boards of Malabar, Tanjore, North Arcot, Rannad and South Arcot.

75. *Final bills prepared for small or sums d'ausais.*—Instances were noticed in which the final bills were prepared for small or nil amounts or minus amounts. Sometimes in the anxiety to show large expenditure in a year, final payments are made after approximate check-measurements or without any check-measurements. Subsequently, the accurate check-measurements and in petty payments being due to the contractors or a recovery from the contractor is found necessary. This is irregular.

In Chettur District Board, for instance, the final bill was for Rs. 7 in one case, in another case, it was for nil amount, while in a third case, it was for minus Rs. 256-14-0. Salem and Tanjore districts furnished many instances of the above kind.

76. *Fault measurements and check-measurements.*—A supervisor of the Tirunelveli District Board submitted a contract certificate in favour of a certain contractor for work which had not been executed. The Supervisor passed in his measurement a certain item of work, viz., spreading metal. The Assistant Engineer check-measured the work. On the discrepancy having been pointed out in audit, investigation was made by the President, District Board, Tirunelveli, who held that both the Supervisor and the Assistant Engineer had failed in their duties.

77. *Abuse of drawing powers or devices to avoid higher sanction.*—In some cases the following methods were adopted by the local bodies to avoid the necessity for higher sanction:—

(a) Debiting the expenditure on one work for which there was no sanctioned estimate or statement or on which the sanctioned amount had already been spent to another work which could admit of such a debit, and subsequently writing it back;

(8) Collecting materials for several works, sanctioned and unsanctioned, and charging the whole expenditure in the first instance to one major work and reallocation the same after the sanction was received. Such deficits were noticed in the local boards of Bellary, Kistna, Nellore and Anantapur.

78. *Improper maintenance of Special Provincial Grants Register.*—In G.O. No. 1469, Law (Education), dated 4th October 1921, the instructions of the Auditor-General in regard to the audit of expenditure incurred from Provincial grants were communicated. According to these instructions it is the duty of audit to see that a grant-in-aid given for a specific purpose is actually spent on the work for which it is given. This check can be exercised only when the accounts of special provincial grants contemplated in article 84 of the Local Board Audit Manual are maintained correctly and up to date by the Local Audit Branch of the Treasury Deputy Collector's office. But it was noticed that in most of the districts the registers were not properly maintained. The importance of maintaining this register up to date does not appear to have been realised by most of the Treasury Deputy Collectors, for instance, those of Nellore, Godavari, Vizagapatam, Cuddapah, Salem, Madras, Karaikal, Ramanad and Chittoor.

79. *Expenditure on Trunk roads.*—One of the objects for which large grants are given by Government every year is the maintenance of Trunk roads. A register was also specially prescribed in the form appended to G.O. No. 184, L. & M., dated 27th January 1923, for watching the expenditure. This was not properly kept up in Guntur and Malabar.

80. *Materials collected but not spread included in the Trunk road expenditure.*—In G.O. No. 2181, L. & M., dated 6th November 1921, Government ruled that the cost of materials which have been collected but not spread should not be treated as expenditure for purposes of the grant. Some of the local boards, however, included such expenditure in the statement of expenditure on trunk roads and claimed provincial subsidy in respect of it. For instance, in Guntur a sum of Rs. 909-4-0 and in Salem a sum of Rs. 2,143-1-9 were thus claimed in excess.

81. *Other irregularities.*—(1) *Tenders were called for even before estimates were prepared.*—In a few cases, tenders were called for even before estimates were prepared as for instance in Nellore, Madras and Kistna districts. This is not in accordance with Executive Instruction No. 403 of the Local Boards Manual and G.O. No. 215 L, M., dated 18th February 1915.

*Tenders not called for at all.*—In some cases tenders were not invited at all. This was contrary to rule 235 of the Local Boards Manual. There were several instances of this in Nellore District Board, where in one case the value of the work to be done was as much as Rs. 3,645. Other instances were in Vizagapatam and Bellary district boards.

82. *Register of works not maintained.*—The decision to maintain this register properly was noticed particularly in the Nellore District Board Engineer's office, where even Provincial grant works costing as much as Rs. 36,800 (Karnal school work estimate), was omitted to be entered in the register. Other instances were in Ramanad, Ganjam and Anantapur districts. The neglect to maintain important registers such as this shows utter lack of supervision over the work of the office staff.

83. *Discrepancies between the journal and check-measurement certificates.*—The following are some of the instances where discrepancies were noticed between dates as given in the journals of an officer and those in the check-measurement certificates given by him in the bills.—

(a) A supervisor in Tinnevely district certified that he had check-measured certain works on 6th March 1923, 27th March 1923, 18th March 1923, etc., but a reference to the journal of that officer showed that he was inspecting some other sites or was attending to some other duties on these dates.

(b) In respect of the work of construction of a culvert in Prapalli Aspari road in Karaikal district, the Assistant Engineer gave 16th March 1923 as the date of check-measurement both in the contract certificate and measurement book. His journal, however, showed that he proceeded from the seat of work to another place on the previous day.

In the construction of another culvert in the same road, the overseer sent both the measurement book and the bill to the Assistant Engineer for check-measurement on 16th March 1923. The Assistant Engineer noted that he check-measured this work on 14th March 1923; but his journal did not make any mention of the same having been done that day.

84. *President fund subscriptions not invested promptly and allowed to earn interest.*—President fund subscriptions collected from the local board servants were not remitted into the Post Office Savings Bank by some district boards for no other reason than that the monthly statement had not been received from the Treasury Deputy Collector. Though this may be the extensible reason in some cases, the real reason appears to have been that there were not sufficient funds in the treasury to permit the withdrawal, many of them having had only deficit balances. The net result was that the subscribers lost the benefit of the interest that might have accrued had the amounts been invested. For instance, Salem District Board had an accumulation of about Rs. 23,229 in the treasury at the end of March 1922.

Tanjore district was another defaulter in this respect.

85. *Vouchers not submitted for audit.*—It was noticed in Nellore that the District Board Engineer had not submitted for audit vouchers to the value of Rupees 18,841-15-0. Of these, vouchers to the value of Rs. 8,867-12-6 related to Provincial grant works. When this was brought to the notice of Government, stringent orders were passed in G.O. No. 749-A, Finance, dated 6th September 1922, communicated to all Presidents of District Boards with Government Endorsement No. 30259-1, L. & M., dated 4th October 1922, that District Board Engineers would be held personally responsible for the omission to produce vouchers for audit.

It is hardly necessary to point out that

"In order that such a system may not lead to fraud, it is imperative that disbursing officers should not only check their accounts with vouchers in every case, but invariably see that there is no undue delay in obtaining the vouchers. The absence of this check is the neglect of an elementary duty of a disbursing officer."

In Tanjore as many as 43 vouchers were not made available for audit. Some of them were, it is stated to be, under correspondence and others not traceable; generally in North Arcot.

86. *Unwise rush of expenditure in March.*—One of the standing objections raised during the audit of the accounts of almost all the District Board Engineers is in respect of rush of expenditure in March and particularly within the last few days of the year.

In Nellore district, for instance, the number of bills passed during the last three days of March 1922 was 302.

The number of bills passed on 31st March 1922 was 331.

The number of cheques issued during the last three days of March 1922 was 100.

The number of cheques issued on 31st March 1922 was 256.

It seems physically impossible to pass so many as 800 and 400 bills in one day if any sort of scrutiny is to be exercised. Consequently the check has necessarily to be nominal and hurried, thus giving room for excess, double, unauthorized or even fraudulent payments. In fact, this is one of the main causes of the several irregularities noticed in the audit of Public Works expenditure.

87. *Avoidable expenditure.*—The apparent neglect of considerations of economy, and the want of regard for the financial interests of the local body, exhibited by some of the local bodies in the Presidency is brought to the special notice of Government.

They are classified under the following heads:—

(1) (a) *Liberal lump sum payments sanctioned to contractors for no other reason than that they sustained loss owing to strict check-measurement, although there was no such stipulation in the contract agreement.*—For instance, a sum of Rs. 2,500 was so paid to a contractor in the Kishan District Board. The propriety of such payments is not understood. Check-measurements are expected to be as

strict as possible and there seems no reason why the so-called loss to the contractor consequent on the check-measurements should have been rehearsed to him by the Board.

(b) In the Anastager District Board a contractor was paid a bonus of Rs. 2,784-8-6 besides the rates in the agreement and also 10 per cent excess in the case of rates not revised. There was no provision for this payment in the estimate, nor was there any stipulation in the agreement for the payment of bonus. The expenditure appears to have been entirely met out of Government grants.

Another contractor in the same local board was paid a bonus of Rs. 200 in the work of construction of a bridge.

(2) *Payment of contractor's profit for materials supplied departmentally.*—Materials such as lime, brick, tank, etc., were purchased for cash from petty local suppliers and supplied to the contractor. Nevertheless, the contractor was paid the full rates for the several items of work, including 10 per cent contractor's profit.

(3) *Expenditure incurred on preliminaries without a finally settled plan,* which had subsequently to be abandoned for some cause or other.

In Suleia district an expenditure of Rs. 649-3-0 was incurred for the formation of a road before the land was acquired. Eventually the land was not acquired and the work had to be abandoned. If rule 224 of the Local Boards Manual had been kept in view, this waste could have been avoided.

In Kinnia district a school building was proposed to be constructed at a cost of Rs. 82,300. After some materials were collected, the design was altered and the work was entrusted to a new contractor at higher rates. Subsequently, the President, District Board, ordered the stoppage of the work as he did not think it worth while to spend such a large sum on an elementary school building. Owing to the frequent change of orders, the loss was estimated by the District Board Engineer to be about Rs. 471.

(4) *Deterioration in the value of materials collected and kept unused for a long time.*—In Kurnool District, materials such as cement, mangalore tiles, paint, wood, etc., which would be required at a later stage of a work, were purchased at the close of the year in one lot for several works intended to be carried out in the subsequent year and the cost debited to such works. Thus, materials purchased in March 1922 and some even in March 1921 remained untouched till the close of August 1922.

(5) *Loss caused by neglect of responsible officers.*—An established case of misappropriation of Rs. 280-4-0 in 1921 by the bill-collector and union clerk of the Krishnagiri Union failed in a court of law for the simple reason that the President, Union Board, Krishnagiri, did not take security bonds from them. The Union Board finally resolved to write off the amount which it did on 30th August 1923.

85. *Double payment.*—In Chingleput, it was noticed that some corlies were paid for departmentally twice over for the period 21st February 1923 to 24th February 1923. Their attendance was marked on two different muster-rolls, one for spreading patch work and another for earth-work. The measurements were taken by the master on 19th March 1923 and the rolls were paid on 13th March 1923 by the cashier. The amount paid in excess was, however, recovered on 30th June 1923. Two similar cases of double payments were noticed in the test audit for the period extending from 1st August 1920 to 31st March 1921. The irregularity is of a serious nature and stringent orders seem necessary to avoid a recurrence.

There were two instances of double payments in Ganjam district. One was the travelling allowances claimed and paid twice to the Presidents of a Taluk Board and the other was the travelling allowance paid to an assistant teacher for the journey performed to undergo a course of physical training at Chikacole. Had the register of bills been written up and maintained in the manner prescribed in Executive Instruction (652), page 165 of the Local Boards Manual, the claim could not have been passed a second time.

86. *Irregular advances and delay in the adjustment of advances made.*—The want of early adjustment of advances is a serious and irregularity and often results in considerable loss to the local board. The President, Taluk Board, Vizianagram,

for instance, drew advances for expenditure on sanitary arrangements, census operations, etc., in November 1920. The total amount of such advances outstanding at the end of March 1923 was Rs. 2,575. The amount still remains to be satisfactorily accounted for.

The President, Adoni Taluk Board, drew advances amounting to Rs. 7,000 for removal of congestion in Kengi Union. The advances were drawn in May and June 1921 and the last day of March 1922 and remained unadjusted up to January 1923.

In some cases, contractors were paid advances for materials such as bricks, etc., without the necessary precautions against loss or misuse of the materials being taken as required by rule 266 (b) of the Local Boards Manual, e.g., in Karnool and Tanjore districts.

90. *Overdrawals by local boards.*—Overdrawals have been a common feature in most of the local boards during the year under review. In some districts, even union boards overdraw their accounts in the treasury to a large extent. The district and taluk boards might perhaps have an excuse for the overdrawals in that they have to incur large expenditures in advance of the receipt of their land cess and of grants from Government on account of trunk roads, medical relief, education, etc.; but that plea cannot be advanced for union boards as grants are not given to them. Unlike the district and taluk boards, the union boards collect the taxes themselves and a deficit balance in the case of the latter shows either the taxes are not being promptly collected or that they incur expenditure in excess of their revenue. In one union board, for instance, it was noticed that the demand on account of property tax for 1921-22 had not been fully settled up to November 1922. Unless the union boards collect their taxes promptly and so regulate their expenditure as to leave a reasonable working balance at the end of the year, the deficits are bound to continue.

In G.O. No. 2185, L. & M., dated 27th September 1923, a system of banking account and drawal of moneys by cheques has been introduced (with effect from 1st December 1923) with a view to preventing overdrawals. But, how far this will have the desired effect remains to be seen.

*Order.—No. 3769, L. & M., dated 4th October 1924.*

Recorded.

2. The Government regret to note that some of the municipal accounts were not prepared for audit or inspection when due and failed to compile the accounts on the due dates.

3. Out of 80 municipalities in the Presidency the accounts of only 16 are reported to have been satisfactorily maintained. The accounts of Sakdapat, Peddapuram, Rajahmundry, Ennsawa, Chikam, Nalluru, Nagapattinam, Tiruvallur, Tiruchinopoly and Villianagaram continued to be unsatisfactory. The system of accounts has since been simplified and the Government hope that the accounts will be properly maintained in future.

4. The Examiner has again reported repeated instances of delay on the part of municipal accounts and local boards in returning audit notes and reports with replies and in settling audit objections. Such delays should not recur. In the case of the Rajahmundry municipality no less than 354 objections were pending, some of them dating as far back as 1916-17. This is deplorable. The attention of local bodies is invited to G.O. No. 12, Finance (L. & M.) dated 15th March 1924, and they are warned that if audit objections are not settled within a reasonable time the amounts involved may be surcharged on the persons concerned.

5. In paragraphs 9 to 14 of his report the Examiner brings to notice several instances of irregularities in the assessment of taxes and the levy of fees. The Government cannot too strongly insist on municipal accounts the necessity for strictly complying with the provisions of the law. It is unsatisfactory to note that in the municipalities of Anantapur, Chittoor, Chingleput, Salm and Vaniyambodi the quinquennial general revision of the assessment books was not carried out in the year in which it was due. Under rule 8 of Schedule IV of the Madras District Municipalities Act, 1920, it is obligatory on Chairmen of Municipal Councils to revise the assessment books completely once in every five years. The Chairmen are warned that if they fail to carry out this statutory duty they render themselves liable to be surcharged for the loss which may be occasioned thereby.

6. Some municipal councils notably Annamalai, Bernamalai, Chinnai, Salem, Tiruvallur, Kumbakonam, Tanjore, Srirangam and Trichinopoly were culpably negligent in collection work. Backlogs in collection leads to financial difficulties and the councils postpone the payment of these liabilities and have recourse to the objectionable practice of diverting earmarked funds for general expenditures. Municipal councils should take more interest in the matter, and should see that the demand, collection and balance statement is placed before them monthly and that the revenues are collected promptly. It is reported that in many cases municipal councillors were themselves defaulters and that the names of persons who had not paid their taxes were included in the electoral rolls in contravention of the provisions of sections 45 (c) and 46 of the Madras District Municipalities Act, 1920. The councils should set an example to other rate-payers by paying all dues promptly. Under G.O. No. 420, L. & M., dated 3rd February 1933, a certificate should be attached to the electoral roll to the effect that every person whose name is entered in the roll has paid all the taxes due for the preceding year. This order should be strictly complied with.

7. The Government expect to observe from paragraphs 17 to 22 of the report that some municipal councils light-heartedly and with undue generosity write off, remit and forgo revenues legitimately due to them. Lists of items of revenue recommended to be written off should be scrutinized with special care and judgment by the Chairmen and the council and no item which is recoverable should be written off. Particular care should be taken to see that time-barred appeals are not admitted; and appeals should be disposed of on their merits without undue leniency. The instructions for the assessment of profession tax issued as Notification No. 461, published in Part I-A of the Fort St. George Gazette, dated 15th July 1931, should be carefully followed.

8. The Examiner points out many irregularities in connection with issues and execution of public works. There were many instances of failure to take contract agreements and security or earnest money deposits and to obtain the sanction of competent authority to finalise or revised estimates and allocations before incurring expenditures. Payments were made to contractors in some cases even before the works had been executed and measured. Delays in check-retainment are common in the case of local fund works. Payments for works at rates higher than those agreed upon in the contract agreements have been allowed and remissions have been granted to lessees and farmers of revenues in contravention of the terms of the contracts. These irregularities should be avoided and the provisions of the Municipal Account Code and the Local Boards Manual should be strictly observed. Where owing to any extraordinary circumstances payment at higher rates is found necessary special sanction should be obtained from the Council, Board or Government according as the payment is from municipal or local fund or from Provincial grant. There was a delay of nearly ten years in the North Arcot district in settling the claim of a board's contractor, a delay of over two years in the Salem district in making payments on water rolls and a delay of over 8½ years in the Salem municipality in discharging a liability. Such extraordinary delays bring discredit on the administration. In paragraph 87 the Examiner brings to notice instances in which there has been neglect of considerations of economy and want of regard for the financial interests of boards. Local boards are advised to avoid waste of public funds and observe the strictest economy possible.

9. Action has been taken especially for the recovery from municipal councils of the unpaid balances of provincial grants referred to in paragraph 31 of the report. The Government view with disapproval the device adopted by some municipal councils and particularly the Nellore Municipal Council to avoid refunding unpaid balances of provincial grants.

10. It is observed from paragraph 35 of the report that certain municipal councils continued to make advances to councillors for carrying out works. The practice should cease as already ordered in paragraph 6 of G.O. No. 467, Finance, dated 11st May 1933. In some cases the advances paid to contractors and advances drawn by presidents of local boards remain unadjusted for many years. Steps should be taken to adjust them without delay.

11. It is disquieting to note that defalcations and temporary misappropriations of money continue to a large extent. The Examiner reports that since the submission of the previous report there were nine cases of defalcations and temporary misappropriations in Municipalities and thirteen cases of encroachment of local fund money, the delinquents in some of the latter cases being presidents of taluk and union boards. The Government agree with the Examiner that these defalcations were not due to any defect in the system and that the frauds were rendered possible by want of supervision over bill-collectors and clerks and neglect of rules. Local boards and municipal councils are requested to see that a closer and more intelligent supervision is exercised over the staff and that the rules are strictly complied with. Presidents and Chairmen are informed that they will be liable personally for any loss which may be occasioned by failure on their part to observe the rules.

12. As many as 16 municipal councils had deficits in the revenue account at the end of the year. The deficits were due mainly to delay in the assessment and collection of municipal revenues and were not by diversion from earmarked funds. In many cases deficits were avoided by postponement of the payment of liabilities. The Government trust that Chairmen will take prompt steps for the collection of revenues and avoid these irregularities.

13. It is important that the special provincial grants register and the trunk road register referred to in paragraphs 75 and 76 of the report should be properly maintained in order to ensure that provincial grants are utilized for the purposes for which they are intended. The action of some municipal councils in having utilized for general expenditure the subscriptions to the Provident fund and in not having duly adjusted the bonus due to the accounts of the subdivisions is a great injustice to the municipal subdivisions and is reprehensible. Such irregularities should cease.

14. In spite of repeated instructions District Board Engineers were again guilty of unduly rushing expenditure in March and particularly within the last few days of the year. The worst offender in this respect was the District Board Engineer, Nellore. District Board Engineers should be warned that they should give up this practice.

15. Double payments such as those mentioned in paragraph 85 of the report can be easily avoided if even ordinary care is exercised. They should not recur.

16. Some of the local boards continued to overdraw funds on the treasury. The investigation into the causes which led the boards into a condition of insolvency referred to in paragraph 1 of G.O. No. 457, Finance, dated 31st May 1923, was completed in 1923 and the following are some of the important measures taken to stabilize the finances of local boards:—

(1) An advance of 75 per cent of the maximum grant admissible for the maintenance of trunk roads was paid in 1923-24 in addition to the grant due for the year 1922-23 payable in 1923-24. From 1924-25 onwards local boards are allowed to recoup monthly the expenditure incurred on such roads to the extent of 75 per cent of the maximum grant, the balance of the grant being disbursed in the beginning of the following year on receipt of the Superintending Engineer's inspection report.

(2) Local boards are allowed to recoup monthly the expenditure on the maintenance of second-class roads to the extent of 80 per cent of the maximum grant and the balance of the grant is disbursed at the end of the year.

(3) The services of District Board Engineers have been provincialized from 1st March 1924.

(4) The pay of Government medical officers in taluk headquarters institutions is met entirely from Provincial funds from 1st September 1923.

(5) Each local board is credited on the 15th of each month with one-twelfth of the estimated annual receipts from the taxes and other revenues collected by the Government on behalf of the board, the necessary adjustment being made after the close of each financial year.

(6) In the case of the provincial subsidies for education except the subsidy equivalent to the educational tax, one-twelfth of the subsidies due to each local body in a year as estimated by the Director of Public Instruction is paid monthly during the first nine months of the year, the balance due being adjusted in three equal instalments on the 15th of each of the last three months of the year.

(7) Grants to local bodies on account of the following purposes are credited monthly in the year in which the expenditure is incurred:—

(i) Percentage contributions towards the pay of medical officers employed by them; and

(ii) half the cost of medical institutions opened after 1st March 1915.

(8) In the case of non-recurring grants for capital works, it has been ordered that as soon as a local board makes a payment for a work for which a grant has been sanctioned the portion of the amount paid which is defensible to Government should be credited to the board by the Treasury Deputy Collector on production of the prescribed vouchers and subject to necessary adjustment by the Director of Local Fund Accounts after audit.

(9) Comprehensive grants were paid to local boards to wipe off their deficits.

(10) Important changes were introduced in the transactions of local boards with the treasury and in the compilation of their accounts. With effect from 1st December 1923 each local board (except such of the minor union boards as might elect to bank with the local Post Office Savings Bank or other bank approved by Government) has a banking account with the treasury which is operated upon by means of cheques drawn by the President of the board. The position of the treasury is merely that of a banker and the Treasury Officer is requested to see that the local board does not overdraw its account without the sanction of Government. From 1st April 1924 each local board has been made responsible for the maintenance of its accounts. There should no longer be any justification for overdrawing of funds and the Government will not permit any local body to overdraw its funds in the treasury in future.

*Act No. 20, 1928 (S.O. No. 1033, Law (Education)).*

§ 1. *1911*—The rule relating to the Provident Fund for teachers in non-pensionable service, as brought up to date, are published as—

### Scheme of provident fund for teachers in non-pensionable service.

1. *Qualification of the fund*.—A provident fund for the benefit of teachers in non-pensionable service shall be instituted by Government. All contributions to the fund shall be made by means of deposits in Post Office Savings Bank.

2. *Admission*.—(a) The scheme shall be compulsory on all certificated teachers, pandits, musahib, instructors, librarians and clerks employed in all educational institutions under private management which are recognized under the Madras Educational Rules or under the rules made under the Madras Elementary Education Act, whether aided or unaided, whose pay is not less than Rs. 20 per mensem. Certificated teachers, pandits, musahib, instructors, librarians and clerks who are drawing less than Rs. 20 per mensem are given the option of subscribing to the fund. Teachers and other employees mentioned above who have been holding, or are likely to hold, officiating or temporary posts, for a period of at least three years, those holding probationary trained teachers' certificates and uncertificated teachers in receipt of a salary of Rs. 20 per mensem and over are also given the option of joining the fund. No one shall be admitted to the fund who is less than 20 years of age. The amount of every subscriber to the fund shall be chosen when he attains the age of sixty.

(b) The following classes of employees are exempted from the operation of the scheme:—  
(i) Certificated teachers, pandits, musahib, instructors, librarians and clerks holding a policy in a Life Assurance Company so long as the policy remains in force and appears to Government to be satisfactory.

(ii) Certificated teachers and other employees mentioned above engaged by an institution which has a provident fund of its own which is accepted by the Director of Public Instruction.

(iii) Certificated teachers employed as teacher-managers of schools.

(iv) Teachers who belong to a religious order.

Employees coming under classes (i) and (iii) above are given the option of joining the scheme.

(c) District Educational Officers (Inspectors of girls' schools in the case of girls' schools) shall be empowered to admit institutions and employees to the benefit of the fund. They shall call on all employees whose joining the fund is compulsory to submit to them an application in the form prescribed in Appendix A through the manager or superintendent of their school. They shall issue to each employee who is eligible to join the fund two certificates duly signed by them, one to the effect that he or she is eligible to join the fund and another to the following effect:—

"On \_\_\_\_\_ a sum of \_\_\_\_\_ rupees and paise was withdrawn from the fund for reasonable cause the amount at his or her credit will, subject to the conditions laid down in these rules, be increased by a grant from the Government equivalent to one-third of the amount." Such certificates shall be attached to the Savings Bank Pass Book to be issued on behalf of the subscriber as laid down in rule 6 infra. District Educational Officers and Inspectors of girls' schools shall maintain a card catalogue register in the form prescribed in Appendix B showing the names of the subscribers who have been permitted to join the fund, and far whom certificates have been issued by them.

(d) The managers of private schools, which have provident funds of their own, may apply to the Director to have their provident funds merged in the Government provident fund and the Director may sanction such applications. The managers shall Government send up their funds and deposit in the Post Office Savings Bank the amount standing to the credit of each subscriber. Such amounts shall be paid to the subscribers, together with the interest accrued, when they withdraw from the Government fund.

3. *Proportion of contribution to be paid*.—The contribution to the fund shall be a percentage of 6% on the pay. No contribution shall be demanded on fractions of a rupee included in a subscriber's pay. Contributions shall be reduced on the subscriber's pay of the subscriber if he holds a permanent or temporary post and on the actual pay drawn if he holds only an officiating post. When a subscriber is temporarily on reduced pay on account of absence on leave or for other reason, his contribution as well as that of the management shall be reduced on the amount of such reduced pay actually paid to him. It shall also be open to the subscriber to cease from making payments during such periods of absence. Voluntary contributions in excess of the regular amount shall not be admissible.

4. *Contribution by the management of the school and by Government*.—(a) Both the management and the Government shall contribute. The management, except when a certificated teacher is himself the manager of and the only teacher in a school, shall contribute a sum equal to half the contribution of the subscriber, which shall be paid into the subscriber's account along with his own deposit every month. In the case of teacher-managers schools the pay of the teacher-manager shall, for the purpose of contribution to the fund, be fixed by the District Educational Officer (Inspector in the case of girls' schools) subject to revision, if necessary, by the

(c) When a pass book opened on behalf of a subscriber has been fully used up it shall be forwarded by the postmaster to the District Educational Officer (Inspector in the case of girls' schools) for review and production when the account is finally closed and the Government contribution claimed.

(f) When a subscriber leaves one school and seeks employment in another and the Government President fund scheme applies to both schools, the District Educational Officer (Inspector in the case of girls' schools) of the school which he has left shall be responsible for effecting the transfer of his account to the post office at which the account of the school which he has joined stands open. District Educational Officers shall maintain a register in the form prescribed in Appendix D of the transfer of accounts mentioned by them. The manager or correspondent of a school shall furnish every subscriber who leaves his school with a certificate which should bear the authentication of the District Educational Officer of the district, specifying the period for which contributions to the fund were made by the subscriber and by the management on his behalf.

(g) In the case of the transfer of subscribers from an institution in which the Government President fund scheme applies to another having a separate president fund or new ones, the amount at their credit should be transferred to the fund which they newly join instead of being handed over to them. Contributions to the fund on whose behalf accounts are opened under the provisions of this scheme shall not be deposited in their right to open ordinary private accounts in the Post Office Savings Bank.

(h) As the Government contribution will be calculated on the last balance at credit of the subscriber, the savings bank account shall be closed at the time the depositor wishes or for other accepted reasons withdraws his deposits. Whenever a subscriber wishes to withdraw from the fund he shall submit an application to the District Educational Officer of the district (Inspector in the case of girls' schools) through the manager or correspondent of the school giving his reasons. Thereafter, if the District Educational Officer is satisfied with the reasons, he shall sanction the closure of the account and issue a certificate to the effect that the subscriber has quit the fund in circumstances which give him a title to the contribution by the management and to the Government contribution. The postmaster shall thereupon close the account in the savings bank pass book and, on receipt of an application for withdrawal signed by the depositor and endorsed as before of the school clerk or post or other person proposed by the manager or correspondent of the school, pay the latter on behalf of the depositor the total amount standing to his credit and also return the pass book to the manager or correspondent of the school to enable him to close the Government contribution from the Educational Department. The manager or correspondent of the school shall, after receiving the amount from the post office, deliver it to the subscriber concerned on application made which should be filed in the school in the case of temporary withdrawals (and not checked by the inspecting officers during their visit) and submitted to the Assistant-General Office through the District Educational Officer in the case of final closure. In cases where the District Educational Officer decides that a depositor who has applied for permission to withdraw from the fund is entitled only to his own contributions with interest, he shall issue a certificate accordingly and instruct the postmaster to pay the manager or correspondent of the school the balance due to the management and the postmaster shall, on receipt of an application for withdrawal signed by the depositor and endorsed as before of the school clerk or post or other person proposed by the manager or correspondent of the school, pay the latter on behalf of the depositor the full amount standing to his credit. The manager or correspondent shall, after receiving the amount, pay the subscriber the amount due to him and remit the balance to the treasury to the credit of Government. If any balance of advance given by the depositor remains unpaid at the time of closure of his account it shall be taken into account in calculating the amount due to the depositor. All applications to the postmaster to close the account must be supported by the District Educational Officer's order in original which should specify the actual amount allowed to be withdrawn the portion of it to be given to the depositor and the portion, if any, to be retained by Government. District Educational Officers shall maintain a register in the form prescribed in Appendix D of closure of accounts mentioned by them.

(i) The pass books issued by the post office on behalf of the depositor shall be in the custody of the manager or correspondent of the school. Every depositor should, when in the official hour, be permitted to look into his account, satisfy himself as to its correctness and sign a certificate in token of his acceptance of it. The certificates obtained under this rule should be forwarded to the District Educational Officer for check and record in his office.

7. The registers to be kept by managers or institutions.—The following registers shall be maintained by managers or correspondents of institutions, the employees of which contribute to the fund:—

(a) a card catalogue register in the form prescribed in Appendix B showing the names of subscribers to the fund;

(b) a register in the form prescribed in Appendix E showing advances sanctioned from the fund and their rebate;

(c) a register in the form prescribed in Appendix C showing the transfer of accounts mentioned by the District Educational Officer of subscribers who have left the school and the certificates issued to them of the accounts contributed by them to the fund; and

(d) a register in the form prescribed in Appendix D showing the names of the subscribers whose accounts have been closed and the Government contribution paid to them on duly leaving the fund.

5. *Interest in the deposits.*—Interest shall be allowed on all deposits at the rate of 3 per cent per annum or such higher rate as may from time to time be determined for deposits in Post Office Savings Banks.

6. *Investment of deposits.*—(a) The deposits in the Post Office Savings Bank account of each subscriber may, as they accumulate, be invested through the post office in short-term loans or other securities of the Government of India, in the manner prescribed for such investments in the Post Office Savings Bank Rules. The amounts in such cases shall be left in the custody of the Accountant-General, Posts and Telegraphs, who will under rule 48 of the Savings Bank rules draw the interest due and advise the post office concerned to credit the amount in the investor's account.

(b) (i) Subscribers are permitted to invest in Post Office 5-year cash certificates the whole or any part of the deposits standing to their credit in the Post Office Savings Bank.

(ii) The depositor who desires to make such investment will address the District Educational Officer (or the Inspector in the case of girls' schools) through the corresponding of the institution in which he is serving stating the amount as his credit as is indicated in his pass book on the date of his application and sending the pass book and two applications duly filled in and signed (a) one for the Government in the cash certificate as desired by the subscriber and (b) another form should be used in both cases.

(c) The District Educational Officer (or the Inspector), will then satisfy himself that the deposit of the subscriber is sufficient to meet the cost of the certificate and, when satisfied, will countersign the two applications and forward them together with the pass book to the Postmaster concerned for issue of the certificate to the District Educational Officer or Inspector concerned.

(d) The District Educational Officer or the Inspector as receipt of these certificates will intimate to the corresponding the number and denominations of certificates issued and their date of issue and forward them to the Treasury officer concerned for safe custody.

(e) It will be the duty of the subscriber to apply to the District Educational Officer two months before the expiry of the five-year period in order to have arrangements made for the redemption of the amount and for crediting the amount realized to the subscriber's account or for the purchase of new certificates.

(f) For purposes of investment in Post Office Cash Certificates or in any other form of loan or securities of the Government of India, applications should state definitely (a) how much of the amount to be invested is to be met from the fund at the credit of the subscriber at the time of his entry into the Government Service; and together with any interest on that amount, if any, since credited and (b) how much is to be met from the amount which has been received in loan under the Government Provident Fund scheme by his own subscriptions, the subscriptions of the managers of the schools in his behalf and the interest thereon.

(g) Whenever the cash certificate of a subscriber is discharged, his endorsement for the receipt of the amount will be obtained as the reverse of the cash certificate before it is sent to the post office for redemption.

12. *Withdrawal of deposit.*—Withdrawals will be permitted on the death or complete retirement of the depositor provided that—

(a) a subscriber who reneges his part with due notice before the end of the sixth year from the commencement of his admission to the scheme shall receive his own deposit and the interest thereon and with the sanction of the District Educational Officer of the district (Inspector in the case of girls' schools) given for good reason, the contribution of the management, the interest thereon and the contribution of Government;

(b) if a subscriber is disabled or becomes invalided, he shall in all cases receive his own deposits with interest on them at whatever stage of his service he is disabled or invalided, and he should, suitably, with the sanction of the District Educational Officer of the district, secured after consultation with the management, receive the total of the deposits in his credit and the Government contribution. Cases in which the latter sums would not be passed would be those where a subscriber is incapacitated by his own fault;

(c) if a subscriber is dismissed or removed from service, the portion of the deposit which is made up of the contributions of the employer and the interest thereon and the Government contribution may be withheld at the discretion of the District Educational Officer of the district after consultation with the management, but such a subscriber shall receive his own deposit with interest thereon; and

(d) if the services of a subscriber are discontinued with his own fault, he shall, with the sanction of the District Educational Officer of the district, secured after consultation with the management, receive all deposits to his credit and the Government contribution, or, if he seeks re-employment, may continue to participate in the scheme without contribution until and after the date of re-employment, provided that the period of unemployment does not exceed one year.

In all cases in which the total amount standing at credit of his account is not paid to the subscriber the balance shall be credited to Government.

13. (a) *Withdrawal of advance.*—Withdrawal of advance from the fund shall be sanctioned by the District Educational Officer of the district (Inspector in the case of girls' schools), for satisfactory reasons such as to pay expenses incurred in connection with the illness of a subscriber or a member of his family, to pay expenses in connection with marriage, funeral, or ceremony which it is incumbent on the subscriber to perform. Such advances shall be permitted only

where the deposit is the credit of the subscriber exceeds his teacher's pay of the subscriber. The amount of the advance to be continued at any time shall not exceed three months' pay of the subscriber. Such advance shall be repaid in not more than 24 equal monthly instalments but no money will be made from a subscriber while he is on leave of any kind.

(3) District Educational Officers shall maintain a register in the form prescribed in Appendix E of advances sanctioned by them. No fresh advance from the fund shall be sanctioned if there is any balance still to be released out of any advance already drawn from the fund.

(4) A subscriber shall also be at liberty to refund the advance drawn by him in a shorter period than that prescribed by the District Educational Officer if he chooses to do so.

(5) Necessary application for the withdrawal of any advance sanctioned shall be signed by the depositor and duly endorsed in favour of the school clerk or person or other person proposed by the manager or correspondent of the school and must be supported by the District Educational Officer's sanction in original. The manager or correspondent of the school shall, after receiving the money, deliver it to the subscriber concerned on a receipted bill.

22. *Payment of the Government contribution.*—(a) On a subscriber quitting his employment in circumstances which give him a title to the Government contribution, the claim for this contribution shall be sent to the Accountant-General, Madras, by the District Educational Officer of the district (except in the case of girls' schools). Necessary application for the payment of the Government contribution shall be made by the manager or correspondent of the institution from which the subscriber quitted the fund to the District Educational Officer of the district, accompanied by a bill (Appendix F) for the amount due drawn up and signed by the manager or correspondent of the institution, the subscriber's pass-book, the certificate of his eligibility to join the fund granted to him by the District Educational Officer at the time of his admission and certificate to the effect that no advance is shown of the authorized contributions by the subscriber and by the management have been deposited and that the subscriber quitted the service in circumstances which give him a title to the Government contribution under the rules. The application for Government contribution should be supported also by the subscriber's application for admission containing the declaration (Appendix A) and by all relevant correspondence showing that the amount in the Savings Bank account had been disbursed to the proper persons. If any balance of advance drawn by the subscriber from the fund has not been repaid, the amount of such balance should also be certified. The bill drawn by the manager or correspondent of the institution should, after scrutiny, be countersigned by the District Educational Officer. The Accountant-General will then pass one-third of the total amount in the Savings Bank pass-book balance of advance on the Government contribution and this pass order will be given at the bill desk. The amount shall thereafter be drawn by the manager or correspondent of the institution and disbursed to the subscriber. The acknowledgment of the payment in support of the disbursement of the Government contribution drawn by the manager or the correspondent of an institution should be forwarded to the Accountant-General after the disbursements have been made. The pass-book desired will be finally retained and cancelled in the Accountant-General's office.

(b) In the event of a subscriber's death occurring while his fund account is open the total amount standing to his credit in the fund as well as the Government contribution due to him will be drawn by the manager or correspondent of the school and will be divided among all or any member of his family in accordance with the terms of declaration made by him in his application for admission to the fund. The form of declaration is as follows at any time and from time to time. A married subscriber shall not be permitted to assign the total amount at his credit in the fund inclusive of the Government contribution to any other than his wife or children. If no declaration has been left by the subscriber the amount to his credit will be disbursed among his family except that sons and sons of a deceased son who have attained legal majority and married daughters and married daughters of deceased son whose husbands are alive shall be excluded from participation. The division among the persons entitled shall be in equal shares except that the widow or widows and the child or children of any deceased son shall take equally between them only the share which that son would have taken had he survived the subscriber. Any sum due to a widow shall be paid to the minor's legal guardian to be used for the widow's benefit or failing a legal guardian, to such person or persons as the manager or correspondent of the school attests to be the proper person or persons to receive it on the widow's behalf. If such subscriber had left no declaration or has no family (wife or children) entitled to receive the amount at his credit in the fund, the amount will be paid to the subscriber's legal representative or such other person or persons as may be determined by a civil court competent to pass orders in such respect, provided that if the total sum at the credit of the subscriber including the Government contribution does not exceed Rs. 100 it may be paid to such person or persons as the manager or correspondent of the school considers to be the proper person or persons to receive it. Government will not be bound by, or recognize, any assignment or arrangement made or attempted to be made which affects the disposal of the accumulations of a subscriber who dies before retirement.

\* Dates given of Government, the Special Test Examinations have been cancelled from the list of subjects for the examination to be held on December 1924.

2. Candidates in all the subjects must bring with them for use in the examination their own pens and pencils.

3. Attention is drawn to the following rules—

(1) No candidate will be allowed to enter the examination room unless he wears a clean and decent dress, and in all cases where proof was not required for the hour, one will be allowed to keep his shoes on unless they are clean of English pattern, and such and trousers are worn also.

No candidate suffering from any contagious disease is to be admitted to the examination room.

(2) No candidate will be allowed to quit the examination room on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates writing after the expiration of that half hour will not be admitted.

(3) No candidate will be allowed to receive the examination paper during the hours of examination after once getting it, nor to leave the room without duly giving up his answer paper.

(4) Any candidate detected in speaking to, or in any way communicating with, any other candidate will be at once removed from the room, and the circumstances reported to the Commissioner.

(5) Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examination or is suspected of having had access to any portion of any book or booklets to have his examination cancelled only also to be declared from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the honesty of the candidate, he may at any time report to the Commissioner at some future date to be fixed by the Commissioner at any one or more of the subjects of the examination for which he appeared, his success or failure being determined on the results of such re-examination.

(6) No candidate will, on any account, be allowed to take into the examination room clock, rule, compasses or piece of any kind. [The use of books will, however, be allowed in answering the papers in the Assam, Civil Judicial, Criminal Judicial, Revenue and Jail Tests.] Any one detected in the violation of this rule, or having recourse to any unfair practice, will be removed from the room, and the circumstances reported to the Commissioner.

(7) No candidate will be allowed to give books to or take books from another candidate during the hours of examination.

(8) Candidates whose names are not in the printed list furnished to the Superintendents must submit a written declaration through the Superintendents, giving full particulars in regard to themselves and furnish such evidence as may be possible of their having applied for admission to the examinations at the proper time and paid the prescribed fees. The answer papers of such candidates will not be admitted where it is clear that the omission of their names is due to a fault of theirs.

(9) Candidates desiring to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the rules established in the past, must not expect to have their papers valued at their results published. In all cases where permission has been granted, the same centre or letter permitting the change should be produced for the satisfaction of the Superintendents.

(10) Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instructions on this point in the examination hall from the Chief Superintendents of the examination.

(11) A candidate having completed his paper will run from his seat and remain standing as if the Superintendents asked his answer papers. Any candidate wishing to ask any question of the Superintendents will pause the same instant, but will on no account leave his place.

(12) Any papers run up without the candidate's name and number affixed will not be valued.

(13) Candidates will not be allowed to take any papers, except their question papers, out of the examination room.

(14) Candidates are forbidden to tear up papers or to throw ink or papers on the floor. All spent papers, etc., should be left on the desk where the candidate has been writing.

## I. NATURE AND SCOPE OF THE EXAMINATIONS.

### Assam, Jail and Revenue Tests and Civil and Criminal Judicial Tests.

Candidates should bring their own books with them for the purpose of answering the question papers in the tests in the use of which the use of books is allowed. No candidate will be allowed to give books to or take books from another candidate during the hours of examination.

The use of books will be allowed in answering the papers in the Assam Test, the Civil Judicial Test, the Criminal Judicial Test, the Revenue Test and the Jail Test as mentioned in the timetable.

In the case of the Revenue Test, the following books, as issued by the Superintendents, Revenue Test, may be used by candidates in the examination hall:—

- |                                   |                             |
|-----------------------------------|-----------------------------|
| (1) Bowd's Standing Orders,       | (4) Survey Manual,          |
| (2) Revenue Regulations and Acts, | (5) Khasra Manual, and      |
| (3) Village and Taluk Manuals,    | (6) District Office Manual. |

Candidates will be allowed to use the Bowd's Standing Orders in answering the paper in the Manuals of Village and Taluk Accounts and vice versa.

In the case of the Civil Judicial Test and the Criminal Judicial Test, the books need not necessarily be Government publications.

The use of a publication containing an index will not be objected to.

In answering the paper on Medical Jurisprudence (Criminal Judicial Test) candidates will be supplied to use Griffith and Fisher's "Outlines of Medical Jurisprudence for India," 4th edition.

Notes.—(1) The use of books containing commentaries will not be permitted, but notes made by candidates in their books will not be objected to, if they merely consist of summaries, amendments or generally any references made for the purpose of facilitating study.

(2) The use of galleys, diagrams, summaries, tables, etc., will not be allowed.

## II. NOTICE TO CANDIDATES.

Candidates who have applied to be examined at Madras are informed that they will have to sit for the examinations at the Madras House, Cherpunk. A copy of the current list will be posted at the entrance to the Madras House on Friday the 5th December 1924 and the candidates are expected to bring their register numbers from this list. No hall tickets will be issued.

Office of the Commr. for Govt. Examinations,  
Madras, 12th November 1924.

Office of the Commr. for Govt. Examinations,  
Madras, 14th November 1924.

## GOVERNMENT TECHNICAL EXAMINATIONS, NOVEMBER 1924.

1. Candidates in all the subjects must bring with them for use in the examination their own *Prav* and *Pravani*. Candidates are also informed that they must bring their drawing instruments with them for those subjects which require them to be squared or joined and diagonals to be drawn. The drawing paper required will be supplied to them at the examination.

Candidates in *Surveying and Levelling* (*Upper grade only*) will be allowed to bring with them their mathematical tables for use in the examination.

Candidates in the subjects, the practical examination in which requires the use of tools, etc., must bring their own tools, etc., with them.

Candidates in Book-keeping, Commercial Geography, Shorthand and Type-writing will be expected to bring with them for use in the examination all their own rulers, squares, knives, pencils and pens.

Candidates for examination in the subjects under 'Commerce' will be allowed also to bring with them ink of two or more colours (other than black ink) for map-drawing, drawing lines in Book-keeping, etc.

Candidates in shorthand will be allowed to transcribe their shorthand notes with a type writer. They will not be supplied with any 'thick' paper for the purpose, but will be allowed to bring with them their own 'thick' paper, if they wish to use such paper. The use of carbon paper will on no account be allowed in transcribing the shorthand notes with a type writer. If the machine used by a candidate, however, goes out of order, no extra time will be given to him to compensate for loss of time while the machine is out of order and being put right.

Candidates in type-writing will have at hand their own type-writers also and the necessary carbon paper with them and transcribe directly on their answer papers the particular kind of machine used by them or, otherwise, their answer papers will not be ruled.

Candidates in Drawing, Design, Painting, Modelling and Engraving should provide themselves with all necessary materials for the examination, except the material to be worked upon, viz., paper, canvas, etc., which will be supplied. They will not be permitted to bring with them any other material than those allowed by the regulations for the examination in the different subjects, which are as follow:—

*Free-hand Outline and Model Drawing* (all grades).—Drawing board, pins, pencils, knife, rubber, charcoal, crayons, broad strokes, plumb-line.

*Design* (all grades).—Drawing board, T square, set squares, compass, pencils, rubber, knife, brushes, or water-colours, brushes.

*Commercial Drawing* (all grades).—Box of mathematical instruments, drawing board, T-square, set-squares, pencils, rubber, knife.

*Painting* (all grades).—Drawing board, palette, rubber, knife, charcoal, crayons, box of oil or water-colours, sponge, plumb line, brushes.

**NOTE**—(1) In the last two papers of both the Lower grade of the Free-hand Outline and Model Drawing Examination, including with any mechanical instruments except the pencil and for the drawing entirely finished, and any candidate found using any such instruments is liable to be dismissed from the examination room and is liable to report to the authorities.

(2) Drawing paper for the examination of all the papers for examination is free and should be properly marked at the end of the examination. For the Design and Painting examinations candidates will be allowed to write the rough outlines drawing on separate paper and transfer it to the stretched paper; but such an arrangement will only be allowed if such order is in the Training examination.

*Modelling* (all grades).—Modelling table, plumb-line, compasses, water-colours.

*Engraving* (all grades).—Drawers of various kinds, eye-glass, square, pencils, knife.

II. The following arrangements are made for the conduct of the examinations:—

*Prav*.—Candidates must present themselves on the first day of the examination at the hour specified, and on subsequent days at the hours at which they will be required to attend.

The examination for all grades in Engraving and for the *Upper grade only* in (1) Free-hand Outline and Model Drawing, (2) Design and (3) Painting will be held only at *Madras and Travancore*.

The examination in Freehand Outline and Model Drawing (Higher grade) will be held also at  
 Exposition.

The examinations in Haiding will be held only at Nodun, Changyuan and Tianshui.

III. Candidates in the method are informed that a copy of the medical list will be posted at the entrance to the examination hall at each station two days before the examination and that they will be expected to mark their register number from this list. For any further information regarding the examination, they should apply to the Chief Superintendent of the written examination. The addresses of the Chief Superintendents at the various medical stations are given below:

[illegible]

Woolcut, Wood Street, St. George, Royal Standard No. 10, Sea Vulture, Mails, Miramides, Demosetables, Kite or L.O. Smith & Bow, numbers. The candidates will, if necessary, be examined in batches, but at least *every five* candidates for the Lower grade and at least *every ten* candidates for the Higher grade must have one machine among them.

**As respects—**Batches of institutions who are desirous that their pupils should be examined in batches and private candidates who desire to be similarly examined, should make the necessary arrangements with the Chief Superintendent *not more than two days* before the examination and furnish him with all necessary information as to the number of candidates and machines and the time at which each batch should attend on the day fixed for the examination.

**At Midday—**Batches of institutions and private candidates should make similar arrangements with the Secretary to the Commissioner for Government Examinations on the 20th November between 11 a.m. and 3 p.m. at the Old College, Nanaimo.

**At Midday—**In the case of candidates for the Lower grade, batches of institutions specifying the particular batch (first or second and so forth) in which they desire to appear will be issued on that day. These batches should be shown at the entrance. Candidates who produce tickets will be admitted to the batch applied for in the tickets. Candidates who do not provide themselves with tickets must claim to be admitted to any particular batch. They will be admitted only if space exists in the batch in the hall, i.e., after seats are reserved for those who have registered their names and obtained tickets for the batch. Candidates who do not hold tickets will accordingly have to wait at the entrance from the hour of commencement of the first batch and take their share of being provided with seats in the first or in any subsequent batch. To avoid all inconvenience and possible disappointment, heads of institutions and private candidates are particularly requested to call at the office on the 20th November and claim tickets. No tickets are on any account to be sent by post whatever to heads of institutions or to private candidates.

Candidates for the Higher grade may appear for the first or second batch at their option and no tickets accordingly are issued for this grade.

**At Midday—**Managers and instructors of institutions and other persons who wish to be allowed into the examination hall to inspect the machines and usually any defuncts should call at the office on the 20th November and have their names registered. Batches of institutions specifying their names, the institutions to which they belong, etc., will be issued to them and these should be produced at the entrance to the examination hall.

Candidates that have such a separate machine and that do not want to be examined in batches are expected to appear for their examination with the third batch for the Lower, and with the second batch for the Higher, examinations.

Managers and instructors of institutions concerned will be allowed into the examination rooms at the entrance between the examinations of the various batches to inspect the machines and to supply any defuncts.

If a candidate reports to the Superintendent that his machine has gone out of order, the Superintendent will inform this to the manager or instructor, if he is working under the promise, and will permit such manager or instructor to enter the hall to make (through the candidates who he is with) to inspect the machine and to remedy the defect or to supply another machine. It must, however, be clearly understood that the Superintendent means no responsibility in this matter; his action will be purely as *provis*, the whole responsibility resting on the candidate and the manager or instructor.

A similar concession will be allowed in the case of a private candidate, if he has some one outside who is willing to inspect the machine and put it right, etc.

*No one else will be given to candidates to inspect for fear of time while the machine is out of order and being put right.*

Attention is drawn to the following rules:—

1. No candidate will be allowed to enter the examination room unless he wears a clean and decent dress, and in all cases where good manners require it, a suitable covering for the head, nor will he be allowed to keep his shoes so dirty that they smudge of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination room.

2. No candidate will be allowed to quit the examination room on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that half hour will not be admitted.

3. No candidate will be allowed to re-enter the examination room during the hours of examination after once quitting it, nor to leave the room without finally giving up his answer papers.

4. Any candidate detected in speaking to, or in any way communicating with, any other candidate will be at once removed from the room and the examination reported to the Commissioner.

5. Any candidate who does not behave properly towards the Chief and Assistant Superintendents of the examination or is suspected of having had recourse to malpractice of any kind is liable to have his examination invalidated and also to be debarred from appearing again for any of the examinations under the control of the Commissioner for such term of years as the Commissioner may think fit; or, if the Commissioner is not satisfied for any reason whatever as to the propriety of the result, he may be required to undergo a re-examination at some future date to be fixed by the Commissioner if any one or more of the subjects of the examination for which he appeared, his answer or failure being determined on the results of such re-examination.

6. No candidate will, on any account, be allowed to take any of the examination rules, notes, hints, model sheets, memoranda or papers of any kind. Any one detected in the violation of the rules as to any papers or any other practices will be removed from the room, and the concession requested to the Commissioner. The use of unauthorised instruments for drawing figures or making lines will, however, be allowed.

7. Candidates whose names are put in the printed list furnished to the Superintendents must submit a written declaration through the Superintendents giving full particulars in regard to themselves, including their address, and furnish such evidence as may be possible of their having applied for admission to the examination of the paper does not pass the prescribed test. The answer papers of such candidates will not be valued unless it is clear that the contents of their names is due to the lack of them.

8. Candidates desiring to change their place of examination, without previous permission, as appearing at any centre other than the one at which they ought to have appeared according to the rules published in the Gazette, must not expect to have their papers with or without results published. In all cases where permission has been granted, the superintendents at latter permitting the change should be satisfied for the satisfaction of the Superintendents.

9. Candidates may have to write their answers on both sides of the paper supplied to them and they will receive the necessary instruction on this point in the examination hall from the Chief Superintendent of the examination.

10. A candidate having completed his paper will rise from his seat and remain standing until the Superintendent takes his answer papers. Any candidate wishing to ask any question of the Superintendent will pass the same notice, but will as no account leave his place.

11. Any answer papers, sent up without the candidate's name and number affixed will not be valued. The answer papers should be stitched or pinned together at the upper left-hand corner, and the whole folded in two, lengthwise (concealing into four). The place of examination and the name and number should be written out clearly by the candidate on the top right-hand side of the first page of the answer paper, as well as on the top of the paper after it is folded.

12. Candidates are forbidden to note down the answers to any question on the question paper itself; they will not be allowed to take any papers, except their question papers, out of the examination room.

13. Candidates are forbidden to leave by paper, or to throw ink or papers on the floor. All "spoil paper, etc." should be left on the desk where the candidate has been writing.

#### GOVERNMENT TECHNICAL EXAMINATIONS, NOVEMBER 1904.

##### ORAL AND PRACTICAL EXAMINATIONS.

It is hereby notified that the arrangements made for the conduct of the Oral and Practical Examinations for the several subjects under the different groups will be published in the *Part II, Group II*, first issue to issue, the subjects, courses, etc., to which the arrangements relate being specified. In all cases for which no arrangements are notified in the Gazette, the necessary information can be obtained from the Chief Superintendents of the Written Examination section.

2. Candidates who may not be able to attend the Oral and Practical Examinations should intimate the fact, sufficiently early, to the examiner whose name is entered first against the subjects brought up by them, so that arrangements may be made for their examination. The particular subjects and grades for which the candidates concerned are unable to attend should be clearly specified in the letter to the examiner.

3. Candidates for the practical examination in which require the use of tools, measuring tapes, scales, etc., should bring their own tools, etc., with them.

4. The following arrangements have been made for the conduct of the Oral and Practical Examinations in the subjects mentioned below:-

**EXAMINATION FOR TEACHERS' CERTIFICATES IN PHYSICAL TRAINING (FOR WOMEN).—**  
DECEMBER 1924.

It is hereby notified that an examination for Teachers' Certificates in Physical Training (for Women) will be held in December. The ensuing examinations will be held on the date to date to be notified shortly only at Madras.

The examination will be in two parts:—

- A.—(1) Practical drill by the candidates under the orders of the Physical Instructors.  
(2) Drilling a class.

B.—A theoretical paper (time allowed for answering the paper, 2½ hours).

2. Only those applicants who have gotten 75 per cent of the total possible number of standards of a course of lectures and practical lessons given by an assistant teacher will be admitted to the examination unless otherwise exempted by the Physical Instructors.

3. The names of successful candidates will be published in the Fort St. George Gazette and candidates will be listed in them in due course. (The candidates who show special merit in sports with distinction will be awarded. Distinction may be gained on the whole examination or in any part only.)

4. Applications for admission to the examination must reach the Secretary to the Commissioner for Government Examinations, Calcutta F.C., Madras, on or before the 10th November 1924.

5. The fee for admission to the examination is Rs. 2. It should be paid into a Government treasury or into the Imperial Bank of India, Madras, and the treasury officer's or Bank receipt should accompany the application for admission to the examination. On no account will the fees be refunded in the Commissioner's Office, whether sent in cash or by post office order. No application will be registered unless it reaches the Commissioner's office by the date prescribed.

6. The application must be prepared in manuscript and should be in the following form:—

**UNIVERSITY OF MADRAS.**

**SUPPLEMENTAL NOTIFICATION, FEBRUARY 1925.**

A conference for awarding Degrees and Titles and for the award of diplomas will be held in the Senate House on Thursday, the 10th February 1925, at 9-55 p.m.

Applications from candidates for degrees, titles or diplomas in the prescribed form must be made so as to reach the Registrar on or before Thursday, the 10th February 1925. Printed forms of application for the purposes can be obtained from the office of the Registrar on application made in person or by post. Special forms of application are available for candidates taking their degree in science, and for those taking the M. A. Degree. Candidates are therefore requested to specify the degree which they desire to take at the conference.

The fee for a degree in science other than M. A. is Rs. 10.

" " the M. A. Degree is Rs. 20.

" " in person is Rs. 25.

The fee referred to above should be paid into the Imperial Bank of India, Madras, or into any one of the Government treasuries or branches of the Imperial Bank in the province, and the receipt therefor submitted to the office with the application for admission to conference, and in the case of those residing outside the Province, the fees should be sent to the Imperial Bank of India, Madras, and the receipt therefor sent to the Registrar.

Applications not prepared in the prescribed form, or deficient in any particular, or received after the prescribed date, will not be accepted. Candidates are advised, as a safe guard against the non-receipt or non-delivery of applications, to submit the same with MAJORS THAN TWO PERSONS NAME. Enquiries from candidates as to the receipt of their applications in the office of the Registrar will not receive attention. Such applications, if accompanied by an additional payment, will, however, be acknowledged by the return of the receipt, with the University stamp duly signed thereon.

Cards of admission to the conference will be issued on Wednesday the 11th February, to the address given in the application form. Candidates, besides giving their permanent address, must also give one for admission to Madras, or if not Madras, to which their tickets or admission should be directed. Candidates for degrees, titles or diplomas who are not in receipt of the cards of admission are requested to communicate the fact promptly to the Registrar.

Candidates for degrees, titles or diplomas are requested to be in attendance at the Senate House on the day (from 8-55 p.m.). They are requested by the regulations to wear the correct gown and hood pertaining to their respective degrees.

Senate House, 6th November 1924.

## THE TWO SURNAMEANTA AYAR LECTURE FOR 1921.

The above lecture will be delivered by MR. Dr. A. J. Sanyas Gera, M.A., M.B., F.R.C., in the Presidency College (General Lecture Theatre), on Thursday, the 11th December 1921, at 5-30 p.m.

The subject of the lecture will be "Aboriginal Spectra and their bearing on the problem of Atomic and Molecular Structure."

Application for admission to the lecture should be made to the Registrar, University of Madras, not later than Thursday, the 4th December 1921.

The Principals of Colleges are requested to forward cut tickets to the morning of Thursday, the 4th December 1921, a 2d of the members of the staff and of eligible students recommended to attend to the lecture. Applications from students in Colleges reserved without the recommendation of Principals will not be entertained.

(By order)

Senate House, 24th November 1921.

F. J. HENSMAN,  
Registrar to Senate.

## NOTIFICATION.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATION TO BE HELD IN 1922.

Candidates for University Examinations are required to observe the following instructions very carefully:—

1. Strict silence should be maintained in the examination room.
2. Candidates should take their place in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are unduly tardy suffering from infectious diseases of any kind will not be admitted.
3. Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.
4. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.
5. Candidates are not allowed to amend the time assigned to each paper.
6. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.
7. Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so, their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.
8. Candidates are not allowed the use of books of any kind (except as provided in rule 11). They are also prohibited from introducing into the examination room any book or portion of a book; data, manuscript, or paper of any description; from communicating with or copying from each other; and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be sent out of the room forthwith, and his answer will be reported to the Registrar. The use of stenography or shorthand examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments which answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.
9. Candidates' Mathematics and Physical Tables will be supplied to candidates in groups (I) and (II) of the Intermediate, B.A., B.Sc. (Ag.) and B.A. Degree examinations.
10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink-bottles. They must, however, use only black ink while answering their question papers.
11. Particular attention is requested to the instructions regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Papers must not be detached from the answer books of candidates. If the primary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.
12. As soon as candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period permitted for each particular part of the examination, each should stand up in the place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.
13. Communications to the Registrar from candidates regarding information relating to the results of examinations will not receive attention until after the publication of the results in the Port St. George Gazette. Errors or omissions, however, will be communicated by telegram, if required.
14. The hall tickets of candidates sitting for the examination at Madras will be ready for distribution at the Senate House five days before the date of each examination. Candidates sitting for the examination at centres other than Madras should apply to the Chief Superintendent at the respective centre for their hall tickets.
15. No College Student will be allowed to select a centre for his examination other than that in which the College he studies is situated, except for satisfactory reasons and on the recommendation of the Principal of his College.
16. Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendent of such centres as to their identity.

## LAWRENCE SCHOOL, GHORA GALL, MURREE, PUNJAB.

## COMMONS TRAINING CLASS FOR EUROPEAN MAJORS IN EUROPEAN SCHOOLS.

- The next course begins on 1st March 1925.
- Applications for admission to the Training class will be accepted by the undersigned up to 31st December 1924. They should not be submitted direct to the Principal. Forms of application may be obtained from this office.
- The course is one of two years but graduates whose progress has been satisfactory will be allowed to take the examination at the end of one year.
- Age—Candidates must be 17 years of age on 1st March 1924.
- Qualifications.—The minimum qualifications required in a pass in the Cambridge School Certificate Examination, the High School Examination for European Schools, or an equivalent examination. Preference will be given to those who have passed the Intermediate Examination of an Indian University.

Every candidate must produce a certificate of good moral character signed by the head of the institution with which he was last connected, and a certificate from a Commissioned Medical Officer that his health is good and that he is suffering from no infirmity likely to interfere with the progress of a student.

6. *Course of study*—The class which is constituted and regulated by the Punjab Government is under the control of the Principal, Lawrence School, Ghora Gall, to whom all correspondence, subject to the conditions laid down in paragraph 2 above should be addressed.

The purpose of the course of study is (a) to review and supplement the student's knowledge of the subjects which usually form the curriculum of European schools, (b) to acquaint the students with the principles underlying the management, school organization and hygiene, (c) to study the laws of mental discipline in relation to school work. The examinations in these subjects will be conducted by the Punjab Educational Department at the close of the course.

Students are also expected to undergo a course of study in (d) Drawing, (e) Modern Study, (f) Physical Training. Every student is expected to join the local detachment of the Auxiliary Force, to inculcate himself actively in the Boy Scout movement and to be able to take part in and to control efficiently boys' games and other activities in the corporate life of a school. There will be no formal examinations in these subjects but credit for proficiency in any or all of them will be entered on the diploma.

7. *Discipline*—The Principal has power to discipline from the class at any time any student whose behaviour or progress is, in his opinion, unsatisfactory.

High Court, Madras,  
 20th October 1924.

Under the provisions of section 120 of the Code of Civil Procedure, 1908, the following draft amendments to the Civil Rules of Practice are published for the information of all persons interested and it is hereby notified that the draft amendments as well as any objections or suggestions thereon which may be received in respect thereof from any person interested in the matter will be taken into consideration by the High Court on or after the 1st December 1924:—

Add the following at the end of rule 22: "and inspection will be allowed, without the payment of any fee, during the pendency of such suit, appeal or matter."

Insert after rule 14 the following two rules:—

"35-A.—The inspection of the record shall be made in the presence of the record-keeper or his deputy and the fee for inspection (except where inspection without payment is permitted under rule 22) shall be 10 annas for every hour or part of an hour during which the record-keeper or his deputy shall be engaged and shall be paid by check for stamps affixed to the application.

"35-B.—The payment of the inspection fee shall entitle the applicant to read any part of the record specified in his application and the inspection at which has been allowed by the Court. He may make a short memorandum of the date and nature of the document as he reads; he may describe it sufficiently in case a copy is required, but he shall not be entitled to make a copy of the document or part of the document or make extracts therefrom."

Under the first part of rule 16 concerning with the words "If leave is granted," and adding with the words "and for every additional year, annas four" and insert in place the following:—

16. When an application for copy of any record or document does not give the number and date or other necessary particulars of the case or other proceedings in which the record or document

is filed, the following fee shall be levied in connection therewith for the purpose of making a search ascertained by such respective particulars—

Fee for searching the records of any one year for a single document ..... Rs. 1. 0.  
or entry, or for all papers forming a single record.

For every additional year ..... 0 0 0

Such fee levied "Search of records" now appearing where rule 37 and inserted above rule 38.
